# ROTZKY THREATENS WAR ON ALL EUROPE

## Ship Runner No Mystery Skipper Is Frank; Hovers Off Coast With Boozed Cargo

(EXCLUSIVE DISPATCH.)  
ATLANTIC CITY, July 27.—The identity of the alleged ship runner—ship lying off the coast has been disclosed. According to reliable information reaching here today, the vessel is the Marshall, 100 tons net, sailing from New York. Her skipper is Eric Anderson, a youthful mariner of 25 years, but believed to be a British subject. She carries a crew of six men, all of whom are Britishers—three English, one French Canadian, a negro cook and the skipper.

According to the information received the Marshall has been doing a land office business in Bahama Island liquor. She hovers from sixteen to twenty miles off Atlantic City in the daytime but at night comes much closer. She never ventures within the three-mile limit. She came up from Nassau several weeks ago with a cargo of the finest Scotch whisky and Gordon gin. She has been making several trips to Montauk Point where she got rid of 1000 cases in the ten days she lay off there. Then the revenue officers got busy and the Marshall weighed anchor and headed this way.

She is the vessel for which the authorities have been scanning the horizon about Montauk Point for several days. Capt. Anderson laughed when an Atlantic City man visited his ship and told him that the Marshall was being hunted high and low by the authorities around Montauk as a ship runner. "They were not much mystery about it," he said. "The launches were back and forth running day and night."

Capt. Anderson, who is short and slight and about 37 years of age was not averse to discussing his business. "I'd like to get away quick now," said he with a trace of anxiety. "I have a lot of stuff aboard. I don't think I'll be able to get under three or four days. These Federal officers can't do anything to me but they can make it uncomfortable."

MAKE TWO TRIPS.  
It is learned that one and sometimes two launches ply to the Marshall nightly, making two trips a day. They take off about six o'clock and return about midnight. The Marshall is landed near Little Egg harbor and is said to be a cache somewhere on Great Bay that a distiller would envy.

The Marshall is an ex-Glocester fishing boat and has been converted into a more lucrative calling. She is said to be bringing sixteen miles off this city last night. Capt. Anderson said he planned to make one more trip to the Bahamas and then lay up for a while. It is stated that he sells the whisky and gin to the local authorities. He is a strapping looking fellow and has a good deal of money. He is said to be a pirate or other marauder may take a notion to invade the craft. The Marshall is painted dark green and is a trim-looking craft.

## SINN FEIN TALK PEACE.

George Hears From De Valera; Smuts Postpones Homegoing.

(BY CABLE AND ASSOCIATED PRESS.)  
LONDON, July 27.—A meeting of all available members of the Irish Sinn Fein today gave further prolonged discussion to the British proposals relative to an Irish settlement, but apparently reached no decision.

A communication from Eamon de Valera is reported to have reached the British Premier, probably seeking further elucidation on some doubtful points in the proposals.

Another significant incident today was the postponement by Gen. Jan C. Smuts of his departure for South Africa until August 1, which was taken to imply the belief that the negotiations as mediator may again be needed.

Even more interesting, however, was the speech of Lord Rykenhead, Lord High Chancellor, in the House of Lords intimating that the government anticipates that the negotiations may last for weeks and in inviting the Parliament and the country to have patience with the difficult task of De Valera and his colleagues who are experiencing in Dublin. He reproved rebellious Unionists in the coalition who denounced the government's policy as shameful and humiliating.

The Lord Chancellor probably had these Unionists in mind when he added that in the event of an Irish settlement being reached and Parliament refusing to accept it, the government would consider going to the country for its approval. Like Mr. Chamberlain in the House of Commons yesterday.

## LATEST NEWS: WOODMAY TAKE POST.

**Filipinos Favor General.**  
Forthcoming Report Likely to Form Basis for Temporary Settlement.

Logical Outcome of Situation is for Army Officer to be Governor.

BY PHILIP KINSLEY.  
(BY CABLE AND ASSOCIATED PRESS.)  
MANILA, July 27.—The preliminary report which the Woodmay mission will make to Secretary of War Weeks in a few days, at his request, may form the basis of action for President Harding, which will particularly settle the Philippine question for the time at least, and be a forecast of the recommendations, which the administration will make to the next Congress for a permanent policy, which, it is felt here, should be done at once.

THE only logical outcome of the situation as seen from this angle, is that Gen. Wood himself be forced to accept the Governorship so that he can carry out his own recommendations and make use of the extensive and accurate information which the mission has been gathering.

THE necessity for the speedy appointment of a new Governor and the placing of the completed on a sound financial basis is urgent. With the action of Congress in granting more departmental power to the local government and the making of the way for securing available funds, it becomes necessary for the Governor to have a strong hand to decide how the money is to be spent, whether on public works, irrigation, loans to sugar men or in other ways.

THE session will come in October and it is felt that it is urgent that the new Governor, who will be responsible for rehabilitation in so many ways, be on hand and have a strong hand to decide how the money is to be spent, whether on public works, irrigation, loans to sugar men or in other ways.

HATFIELD WINS  
BET; RAIN FALLS.

"Rainmaker" Hatfield.

MEDICINE HAT (Ala.), July 27.—[By the Associated Press.] It was announced here today that "Rainmaker" Charles M. Hatfield had won his bet with the Medicine Hat United Agricultural Association, four and one-quarter inches of rain having fallen between May 1 and July 21—and would be paid \$1000. Reports are that some farmers are skeptical and question whether Hatfield produced the rain or whether it "just came." In many districts, however, the belief is general that he fulfilled his promise to insure a certain rainfall.

TELLS HOW  
DR. STONE  
LOST LIFE.

Body of Purdue President  
Not Recovered; Searchers  
Fail to Find Remains.

(BY A. P. MOUNT WIRE.)  
BAMFORD (Ala.), July 27.—Details of the first statement made by Mrs. W. E. Stone concerning the tragic death of her husband, the president of Purdue University, in the solitary fastness of Mt. Ennon, on July 15, were brought here by messenger from the rescuing party tonight.

Mrs. Stone, the messenger said, is the little wife for her harrowing experience and it is expected she soon will recover sufficiently to be brought to Bamford. She is suffering chiefly from hunger and exposure, having been eight days and nights with little food on the mountain ledge.

As Mrs. Stone described the tragedy, the guide said, her husband had attempted a short cut up Rock Chimney, a steep peak. She was following, but they were not roped together.

When the ascent was about half-completed the rock on which Dr. Stone was standing gave way and he plunged over her head to his death on the cliff below.

Mrs. Stone attempted to reach his side, but found herself marooned on the narrow ledge from which she was rescued almost dead from exposure. A tiny stream trickling from the ledge provided her with a meager sustenance.

Contrary to previous reports, the messenger said, Dr. Stone's body had not been found. Members of the party who first descended into the chasm said the body was not at the bottom. Search is being continued near the foot of Rock Chimney.

TEMPERATURES IN  
PRINCIPAL CITIES.

Following were the maximum and minimum temperatures yesterday in various eastern cities compared with Los Angeles:

Los Angeles: Max. 72, Min. 52.  
New York: Max. 72, Min. 52.  
Boston: Max. 72, Min. 52.  
Philadelphia: Max. 72, Min. 52.  
Cincinnati: Max. 72, Min. 52.  
Indianapolis: Max. 72, Min. 52.  
Omaha: Max. 72, Min. 52.  
St. Louis: Max. 72, Min. 52.  
Chicago: Max. 72, Min. 52.  
Des Moines: Max. 72, Min. 52.  
Kansas City: Max. 72, Min. 52.  
Winnipeg: Max. 72, Min. 52.  
Huron, S. D.: Max. 72, Min. 52.  
Huron, S. D.: Max. 72, Min. 52.

## URGES MARCH ON POLAND AS INITIAL MOVE TO SEIZE FOOD; CLASH IS IMMINENT

(BY CABLE—EXCLUSIVE DISPATCH.)  
[Copyright, Chicago Tribune.]  
BERLIN, July 27.—If Europe will not come to Russia's aid in the present famine the Russian people must take bread from Europe forcibly. That is the burden of a speech delivered by Trotsky before the central executive committee of soviets, in which he bitterly assailed Lenin's policy of compromise and conciliation with western capitalism and openly urged a military mass advance of Russian legions into Poland as the first move in an assault against Western Europe.

Trotsky's speech is regarded as practically a declaration of open war against Europe by famine-stricken, cholera-ridden Russia, and looks toward a realization of Europe's worst fear, namely, that the starving Russians, driven by the pangs of hunger, will try to overwhelm Europe in their desperate search for food.

In his speech Trotsky said: "DANGEROUS UTOPIA. The immediate future will show that the policy of conciliation and compromise with capitalist Western Europe as preached by Lenin is merely a mirage if not a most dangerous Utopia."

"Europe will not come to our aid. Europe hates us. It would much rather see our peasants starve than give us bread. There is only one thing left for us to do—take forcibly what Europe will not give us voluntarily."

"Our first move, therefore, must be against Poland. It is against Poland, that has been repeatedly violating the Riga peace, that we must strike. I demand an advance against Poland, for this advance alone will show the world that Russia is not a helpless victim, but a power ready to act as Trotsky has always predicted they would, if a collapse came."

MAKE WORLD GASP.  
"We may go," he has said, "but when we do it will be with a sound so loud that the world will hear."

A similar declaration was made in the New Pravda, which says in an editorial that the misfortune which has now befallen the Soviet government is the downfall of the Soviet government, but that the Soviet government will see to it that its downfall will make the world gasp.

WEALTHY MAN IS KILLED.  
Harry Duryea Found Dead in Office; Took Own Life, Say Police; Recalls Former Tragedy.

(EXCLUSIVE DISPATCH.)  
NEW YORK, July 27.—Harry H. Duryea, wealthy son of Hiram Duryea, starch manufacturer, who was shot and killed by his elder son, Chester B. Duryea, in the Duryea home in Bay Ridge in May, 1914, shot himself through the heart late today in his office in the Equitable Building. At first the records at the police station indicated that Duryea had shot himself accidentally. However, the report of the medical examiner left no doubt that it was a case of suicide, and finally the police concurred in this conclusion.

There were powder marks on the flesh from which the examiner concluded that the muzzle had been pressed against the body, then fired. The body, slipping forward in a swivel chair which had been pushed back from his desk before the shot was fired, was found by Miss Katherine A. Perry, who was in an adjoining room when the shot was fired.

On the floor by the chair lay a revolver, purchased by Duryea in anticipation of a fishing trip. Miss Perry told the police the revolver was delivered by a messenger only a short time before the shooting. "Now I know the police are examining and probably polishing the weapon only a few minutes before she was attracted by the report."

"There was absolutely no reason for Mr. Duryea to take his life," said Alex Andrews, an associate of Duryea's counsel. The shooting was entirely accidental.

Mrs. Duryea declined to say whether or not she wished to make an explanation of her husband's death. Hendrick Duryea, the son, insisted it is an accidental case, adding, "My father's family relations were tried by the police, and he had no business worries."

Mr. Duryea was 47 years old. His father, Hiram Duryea, won fame in the Civil War as a general and organizer of Duryea's Zouaves. Chester Duryea, who killed his father, was indicted for murder, but subsequently was adjudged insane and committed to Matteawan.

## HUGHES GETS TOKIO NOTE

Wants Discussion  
Limited.

Questions of Yap Mandate  
and Shantung Would be  
Eliminated.

Administration Pleased and  
Believes Way Will be  
Cleared.

BY ARTHUR SEARS HENNING.  
(EXCLUSIVE DISPATCH.)  
WASHINGTON, July 27.—Secretary of State Hughes announced today that the Japanese note regarding the administration of the mandate in the Pacific would be accepted on the basis of the administration of the mandate in the Pacific.

Great Britain, France and Italy already have signified readiness to accept and with Japan consenting President Harding's previous policy of non-interference in the Pacific would be accepted on the basis of the administration of the mandate in the Pacific.

Japan consented to participate in the discussion of the Far Eastern and Pacific questions, only as the result of persuasion by Secretary Hughes, who in his note to Tokyo gave notice of an intention to consider the problems such as are of sole concern to certain particular powers or such matters that may be regarded as complicated facts.

Japan does not regard such questions as having a bearing upon the result of persuasion.

Japan consented to participate in the discussion of the Far Eastern and Pacific questions, only as the result of persuasion by Secretary Hughes, who in his note to Tokyo gave notice of an intention to consider the problems such as are of sole concern to certain particular powers or such matters that may be regarded as complicated facts.

# STRING TO JAP PARTICIPATION.

Hughes Received Official Reply from Tokio.

Want Discussion of Far East Questions Limited.

Administration Believes Way Will be Cleared.

(Continued from First Page.)

common understanding in regard to Far Eastern and Pacific problems desired as a basis for mutual reduction of armaments and disarmament. It is not possible to omit such questions from the agenda of the conference.

Both the content of the Shantung in Japan and the inclusion of Yon in the Japanese mandate for the former German islands in the North Pacific are regarded by Japan as "accomplished facts." The American government does not so regard them and will not accept them as such until they are settled "until they are settled right," as one official put it.

**PROSPECT OF CLASH.**  
There is, therefore, a prospect of a clash between Japan and the other powers on the formulation of the program of questions to be discussed.

The administration does not regard the Japanese caveat with alarm, or, as in any sense, an acceptance of the Harding invitation with reservations or qualifications. Officials point to the language of the Japanese note which says Japan's intention is "gladly to accept an invitation for a conference which shall embrace the Pacific and Far Eastern questions."

That is the important thing, say administration leaders. Their attitude is that Japan has done a "sensible and graceful" thing in agreeing to discuss these great problems with the other invited powers, and they do not wish to "wave a red flag," as one official put it, because of the Japanese government at the end of its communication, suggests that there may be matters of interest to maintain particular powers or matters of "accomplished fact" which should be eliminated from the discussions.

It has been brought to the knowledge of the Japanese government that the American government is willing to proceed with exchanges of opinion regarding the agenda prior to the conference and that it considers it advisable to adjust in that agenda the nature and scope of the Pacific and Far Eastern questions to be discussed at the proposed conference.

The Japanese government, on that understanding, are happy to be able to inform the American government that it is their intention gladly to accept an invitation for a conference which shall embrace discussion of the Pacific and Far Eastern questions.

**DISARMAMENT FIRST.**  
The Japanese government have been aware through the communications and published statements of the American government and the conversations between the Secretary of State and Baron Shidehara that the proposition of the American government is to discuss the Pacific and Far Eastern problems in the light of the disarmament question.

At first expressed its willingness to accept an invitation to the conference on the limitation of armaments, but desired to be advised as to the scope and nature of the subjects to be discussed in connection with Pacific and Far Eastern matters.

After conversations between the Secretary of State and the Japanese Ambassador at Washington, the Charge d'Affaires of the American Embassy at Tokio delivered, on July 21, 1921, a memorandum to the Imperial government which read in part:

**HUGHES MEMORANDUM.**  
The Secretary of State of the United States in the course of informal conversations with his excellency, the Imperial Japanese Ambassador at Washington, has ex-

# WASHINGTON NEWS IN BRIEF.

(EXCLUSIVE DISPATCH.)

WASHINGTON, July 27.—Secretary of State Hughes announced today Japan is willing to accept an invitation to the conference at Washington on limitation of armaments and Far Eastern and Pacific problems, though giving notice of her intention to resist consideration of "problems which are of sole concern to certain particular powers on matters that may be regarded as accomplished facts."

Further witnesses appeared in opposition to the American valuation plan of the Fordney tariff bill before the Senate Finance Committee and indications were that the committee will reject it. Repeal of the capital stock tax was urged before the House Ways and Means Committee by Hugh Satterlee, an attorney formerly connected with the Bureau of Internal Revenue.

Gen. Wood and W. Cameron Forbes have made a preliminary report to the President on their Philippine investigation. It is believed here they are inclined against recommending independence for the islands.

The administration is about to launch a drive for postal savings, which have dwindled since the beginning of the war.

Additional disclosures of the government's neglect of disabled veterans were made today while the House and Senate conferees continued to dally with the Sweet bill.

Wayne B. Wheeler, spokesman for the Anti-Saloon League, was flayed by Senator Broussard of Louisiana as a lobbyist seeking to dictate legislation and appointments.

The hope that the Imperial government would not press its inquiry as to the nature and scope of the Pacific and Far Eastern problems to be discussed at the conference in view of the fact that it is desirable that the full acceptance of the invitation of the American government leave this matter open for adjustment in the precise agenda to be arrived at later.

The Secretary of State is willing to proceed with exchanges of opinion regarding the agenda prior to the meeting of the conference. He considers it inadvisable, however, at the present moment, to hamper the program and in particular to delay the arrangements for the conference pending an agreement regarding this matter.

The Japanese government has taken note of the contents of the American memorandum of July 23 received through the American Charge d'Affaires in reply to the Japanese memorandum of July 13 on a conference on the limitation of armaments to be held in Washington.

It has been brought to the knowledge of the Japanese government that the American government is willing to proceed with exchanges of opinion regarding the agenda prior to the conference and that it considers it advisable to adjust in that agenda the nature and scope of the Pacific and Far Eastern questions to be discussed at the proposed conference.

The Japanese government, on that understanding, are happy to be able to inform the American government that it is their intention gladly to accept an invitation for a conference which shall embrace discussion of the Pacific and Far Eastern questions.

# SOVIET WARNED TO FREE YANKS.

(Continued from First Page.)

A larger number are believed to be detained within the borders of Russia, of whom some are restricted to limited areas.

**NOTE HANDED MINISTER.**  
(BY CABLE AND ASSOCIATED PRESS.)  
RIGA (Latvia), July 27.—An official demand by Secretary of State Hughes for the release of the American prisoners in Russia was handed by Consul Albrecht to Ignatius Stark, the Bolshevik Minister here, last night.

Maxim Gorky, it was learned today, has telegraphed to John Miller, the Riga representative of the American relief administration, saying that the communication of Herbert Hoover as head of the relief administration, with regard to American relief for the ill and starving of Russia, may be answered in detail.

The release of the American held prisoner in Russia was told down by Secretary Hoover in his recent cable message to Gorky as being of the utmost importance. American relief measures for Russia would be taken up.

The Hughes message reads: "The American government is advised that despite the repeated efforts of Dr. Nansen on its behalf to secure the release of the American prisoners in Russia, they are still held in a most serious plight."

While the feeling of the people on this subject is extremely difficult to analyze, due to the fact that so many talk one way and think another, it appears to be established that the body of workers and distressed people are somewhat distrustful of the American authorities to countenance measures for relief of the distress in Russia while our citizens are detained.

More than a score of Americans still being held prisoners in Soviet Russia according to the latest news received by the State Department in Washington from that country, are being held here as Mrs. Marguerite E. Harrison of Baltimore, a newspaper correspondent, who was arrested in the vicinity of Ulm, Germany, and Red Cross workers; Royal C. Kesley, an engineer, and Mr. Weston B. Bates, motion picture photographer.

**GORKY REPLY FORWARDED.**  
(BY CABLE AND ASSOCIATED PRESS.)  
LONDON, July 27.—The reply of Maxim Gorky to the American message sent by Herbert Hoover as head of the American relief administration, stating the conditions under which American relief for Russia's sick and starving would be accepted, was received by the London headquarters of the American relief committee this afternoon, and was forwarded to Washington.

It is learned, however, that the Russian offer, but that the detailed reply would be made from Moscow by the head of the Russian central fund for relief committee, Leo Kameeff.

**WAYNE WHEELER EARS GET GOOD BURNING.**  
(EXCLUSIVE DISPATCH.)  
WASHINGTON, July 27.—The Campbell-Willis bill to make prohibition resumed its stormy voyage in the Senate today but it was the part of the bill that broadside was hurled by the opposition at Wayne B. Wheeler, spokesman for the Anti-Saloon League.

Wheeler sat in the gallery and heard himself denounced as a "lobbyist" by Senator Broussard of Louisiana. He was also accused of attempting to dictate the appointment of dry enforcement officers in the various states as a result of exact guarantees that the appointees would interpret the law in a manner satisfactory to the Anti-Saloon League.

Senator Broussard of Louisiana, supported by Representative Patterson of Georgia led the attack upon Wheeler. The Anti-Saloon League returned to the Capitol within a few minutes with neatly typewritten statements denying Broussard's statements.

"Does the Senator know the age of Wayne B. Wheeler?" asked Senator Watson of Georgia, addressing Senator Broussard.

"I do not," replied Senator Broussard.

"And does he know," Senator Watson inquired, "how long he has been a lobbyist?"

"I would like to know myself and just line with it," replied Senator Broussard. "It might be of great interest to the nation to know what he is getting and where the money comes from that pays him. After reading this Volstead junior bill I have an idea that it was introduced in the House to regulate the production of industrial alcohol; that Mr. Rockefeller fears the development of an alcohol engine which may in time displace the gasoline engine, and for that reason is opposing the bill largely to the salaries which Mr. Wheeler and others are getting. This matter will be established in due time, expect, if I live to see it."

He demonstrated on this floor that John D. Rockefeller is putting out his money for moral uplifting but for the purpose of protecting the business in which he accumulated his large fortune."

**ANTE KU KLUX KLAN RESOLUTION TABLED.**  
(BY A. P. NIGHT WIRE.)  
AUSTIN (Tex.) July 27.—A resolution proposing investigation of alleged activities in Texas of the Ku Klux Klan and protesting against the sending of representatives of that organization into the State, was tabled in the Texas House today by a vote of 63 to 24.

**DEFEAT OF NORRIS BILL IS CONCEDED.**  
(BY A. P. NIGHT WIRE.)  
WASHINGTON, July 27.—Failure in the Senate of the Norris bill to create a government-owned export financing corporation virtually was conceded today by Republican leaders, and the Finance Committee of which Senator Norris is chairman, decided to attempt drafting of a compromise substitute to be brought up tomorrow.

**How to Avoid Trouble.**  
You may save yourself a lot of trouble and suffering by obtaining a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy at once. It is almost certain to be needed before the summer is over and when needed, is worth many times its cost. It is thoroughly reliable. (Advertisement.)

# DANISH PRINCE IS SHIP'S CAPTAIN.

(BY CABLE AND ASSOCIATED PRESS.)

COPENHAGEN, July 27.—Prince Axel of Denmark, who is a captain in the Danish navy, and a nephew of Queen Alexandra of England, has joined the mercantile marine for the next three years and has just sailed as captain of the big mail ship Asia, of the East Asiatic Company, for San Francisco.

# SAVINGS DRIVE IS STARTED.

(EXCLUSIVE DISPATCH.)

WASHINGTON, July 27.—With the cordial endorsement of the Federal Reserve Board and the savings banks of the country, a drive to increase postal savings throughout the country is about to be inaugurated by Postmaster-General Hays.

Reforms in the postal savings system necessary to this end are under consideration by the board of directors, including the Postmaster-General, Secretary of the Treasury, Mr. Hays, and the Federal Reserve Board, members of the House and Senate Postoffice committees, bankers and others.

Among the important reforms suggested by Mr. Hays today, were the increase in interest rate from 2 to 3 per cent, the depositor to receive interest on funds held less than one year, compensation of fourth class postmasters for handling the business in order to increase the number of offices receiving deposits, the placing of the funds in local banks, and a more liberal arrangement by which depositors banks may qualify.

Treatment of depositors in the past, according to Mr. Hays, amounted almost to fraud. With \$10,000,000 on deposit last year from 500,000 depositors and with the law providing that 3 per cent interest be paid, the government paid less than 1 1/2 per cent interest to these depositors and by redepositing at 2 1/2 per cent made a net profit of \$1,750,000.

This Mr. Hays termed "sheer profiteering." The certificates pledged 2 per cent, he said, and failed to say anything about no interest being paid if deposits are not left a year.

In consequence of these things and of the interruption caused by the issue of Liberty Bonds and War Savings Stamps, the number of offices receiving deposits dropped from 12,823 in 1912 to 8,114 in 1920, whereas, according to Mr. Hays, savings should be received at 50,000 offices.

The question of increasing the postage rate Mr. Hays said, had been suggested to him by Secretary Mellon as a means of raising revenue, and the point was raised under discussion by postal officials. The postoffice has on hand 1,800,000 3-cent stamps with which to inaugurate the change, should it be decided upon.

**BAY CITY CONDEMS JAP DEPORTATIONS.**  
(BY A. P. NIGHT WIRE.)  
SAN FRANCISCO, July 27.—A telegram condemning the recent deportation of Japanese field workers from the Turlock district as the "high-handed action of a man," was sent to Secretary of State Hughes today by the San Francisco Chamber of Commerce.

A letter characterizing the deportation as a "high-handed outrage" and asking him to convey to his government the chamber's sentiments in the matter also was sent to B. F. Bada, Japanese Consul-General here. Resolutions were adopted also, condemning the action of the mob, commending the authorities for the way they are handling the situation, and asking that "nothing be left undone to prevent the recurrence of such an outrage."

**TO SEND PROTEST.**  
(BY CABLE AND ASSOCIATED PRESS.)  
TOKYO, July 27.—The Nichi Nichi says today that the Cabinet has decided the government should send a protest to the United States against the deportation of Japanese workers from the harvest fields in Turlock, Cal. The Foreign Office, when inquiries were made there, said it had no information concerning the reported decision of the government.

The Japanese Foreign Office announced on Monday last that it would take no action in connection with the Turlock incident beyond requesting investigation of a Tokyo dispatch staff, since it was regarded as a local affair.

**RAILROAD PROPERTY TRANSFER COMPLETED.**  
(BY A. P. NIGHT WIRE.)  
DENVER (Colo.) July 27.—The transfer of the property of the Denver and Rio Grande Railroad to the Denver, Rio Grande and Western Railroad was formally authorized today by United States Judge Robert E. Lewis and Walter H. Stanborn of the Federal Circuit Court of Appeals. The authority was granted in an order affirming the final report of William A. Jackson, special master.

The new owners assume all of the underlying mortgages and obligations of the road amounting to \$21,000,000. The sale of the Denver and Rio Grande Railroad was affirmed last spring.

**ONE-MAN GOLFER PLAYS ALL ALONE.**  
(EXCLUSIVE DISPATCH.)  
CHICAGO, July 27.—Green Valley Country Club has a one-man golf match—a man who plays against himself and never lacks an opponent. He is Dr. Harley Parker, known twenty years ago as a "Cub" pitcher, and later as a director of athletics at Northwestern University. He is ambidextrous and plays right side against his left.

Naturally, the doctor has to have two sets of golf clubs and when Southerland Parker is playing Doctor Parker, two caddies are required. Speaking of his game, or games, today, Dr. Parker said:

"My arm is a little better at the drive, getting ten yards more than the right sometimes, but my right arm is more accurate. From tee to flag it is just a draw."

Even when he is playing some other individual, Dr. Parker carries both sets of clubs and his ambidextrous ability gives him a great advantage over a player who can only play right-handed, or left-handed.

"It's the only system," he declared. "When you're off your game with one hand you can switch and you've always got competition."

**OCEAN RATES ON GRAIN FROM TEXAS ARE CUT.**  
(BY A. P. DAY WIRE.)  
GALVESTON (Tex.) July 27.—A reduction of 2 1/2 cents in ocean rates grain now loading for Antwerp, Rotterdam and Havre, was put into effect today by steamship agents here and at other Gulf ports. The reduction is the result of a tonnage at Gulf ports is reported to have been the cause of the reduction. Rates were previously quoted at 2 1/2 cents.

# WILL COMBAT GRAIN

(BY A. P. NIGHT WIRE.)

Dealers' National Association Votes to W of Education.

CHICAGO, July 27.—To combat an attempt being made to pool grain crops which it was said, in the proposed pooling agreement would have an estimated value of \$100,000,000, the special legislative committee of the Grain Dealers' Association voted to continue the campaign of education until a month ago.

All steps taken by Chairman H. I. Mansfield and Vice-Chairman M. M. Day to further explain the association's attitude toward the proposed change in the system of grain marketing, were approved.

**REVIEWS SITUATION.**  
A review of the situation as seen by the association is given in a statement saying: "For several years the grain marketing system have been subjected to unwarranted criticism and attacks. The methods of transacting the grain business have been grossly misrepresented. The grain dealers are charged with responsibility for price fluctuations that are and can only be the result of the operation of the law of supply and demand."

**AGAINST MARKETING CHANGE.**  
The statement calls attention to the acts of those opposed to the present system in seeking legislative legislation, but attempts to secure it have by no means been discontinued without giving anything to take its place.

In judgment of legislators and members of Congress, the statement says, "has so far prevented enactment of destructive legislation, but attempts to secure it have by no means been discontinued without giving anything to take its place."

In the face of this situation, the statement continues, the association sees the necessity for further work among grain growers, in a campaign against any change in the marketing plan.

**FARM FIRE LOSS \$45,000.**  
(EXCLUSIVE DISPATCH.)  
MILWAUKEE, July 27.—A \$45,000 fire destroyed farm buildings, tenant house, barn, granary, tool shed, implement buildings, this year's crops of hay and newly threshed grain, and all last year's grain on the Ray Gille and George Bort farms, seven miles southeast of Clinton Junction.

**PORTLAND EXPLOSION.**  
(BY A. P. NIGHT WIRE.)  
WASHINGTON, July 27.—House today passed a resolution authorizing the President to invite foreign participants in an exposition to be held in 1925, in the city of Portland, Me.

**ANNOUNCEMENT**  
Once in a while time some things open and living happened cannot again.

**Announcement of the opening Palisades Beach on Saturday, thirtieth, will be made tomorrow.**

See Friday's Times to find out you can get an exclusive bit of Ocean front, in the choicest location in California—forty-five feet from Broadway, for a once-in-a-lifetime price.

# Angels After Cleveland Catcher; New York Walloped by Browns; Pittsburg Defeats

## POWERS MAY CRIMP THOMAS.

Ex-Cleveland Backstop Wants to Play Here.

Angels' Prexy Has Wired Chat for His Terms.

Signing of the Receiver Will Fortify Cherubs.

Determined in every way possible to make a great bid for the 1931 pennant by strengthening the team whenever opportunity arose, Johnny Powers, prexy and owner of the Los Angeles club, has entered a keen eye on Catcher Chet Thomas, who recently was given his unconditional release by Tris Speaker, manager of the Cleveland world's champions of 1929.

Mr. Powers has received a telegram from the clever catcher in which the backstop declares he would rather play here than anywhere else on the Coast. Thomas is a big local favorite, having frequently been seen here in action during the winter league season last year. He caught for Joe Mauer's team and not only did fine work behind the plate, but was timely with his hitting, many of his slams being for extra bases.

Wired Thomas. Prexy Powers has wired Thomas, who is now in Cleveland, asking Chet to give him all the information he can about himself. It is an open secret that Thomas would like very much to put on a Blue uniform and it is almost begging the question that he would quickly come to fair terms.

FANS HAVE FAITH. However, there are many local fans who still believe that Chet has several years of Coast league life in his old snapper and that he would be of valuable service to the Cherubs behind the bat for the remainder of the season.

DAVID ZELZER MAKES DENIAL.

(Continued from First Page.)

Those more prominently mentioned. The judge's action left as defendants besides Zelzer, Weaver and York. "Eddie" Cloutier, "Joe" Jackson, "Lefty" Williams, "Chick" Gandell, "Buddy" Rieberg, and Zelzer.

PUT ON STAND.

"I am going to put him on the stand and he will make a categorical denial of everything charged against him," Mr. O'Brien said. "We want our vindication from the jury."

SEATTLE WINS OUT IN A SLUGGING BEE.

(Continued from First Page.)

Seattle won the slugfest today, 10 to 7. The visitors won five pitchers and the home team three in an effort to win the onslaught of batters on both sides. Demaree, the last pitcher to take the mound for Seattle, tightened up in the last few innings and prevented a threatening winning rally. The score:

SEATTLE 10, SEATTLE 7.

SEATTLE 10, SEATTLE 7.

SEATTLE 10, SEATTLE 7.

SEATTLE 10, SEATTLE 7.

SEATTLE 10, SEATTLE 7.

## MR. M'ANUS DENTS YANKS.

Browns' Slugger is Poison to New York Team.

Senators Flop White Sox in a Close Contest.

Boston Just Little Too Much for Cleveland.

WASHINGTON, July 27.—Eight members of the Chicago American League club, subpoenaed as defense witnesses in the trial of the former White Sox player, today testified before the grand jury.

## MAN BEHIND SPECS WINS.

(Continued from First Page.)

Three should be given watches to play with. Crocker for the first time in some days went behind the plate and saved his crippled semaphores. Jake took as much punishment as if he had tried to throw Dempsey off the bench, and won less glory. No less than three wicked foul tips hit him on his sore spot, and at times he was almost paralyzed with pain.

IN THE FIRST.

Los Angeles made a marker in the first when McAuley tripped to center and Carroll crashed a three-bagger past first so fast that Fred McIlwain couldn't even start to bend his back.

LINDY DOUBLES.

Crawford on first in the fourth and two gone. Lindy doubled to center. With rather weak hitters coming up, the trick seemed to be to send Sam home. Billy Cabel, who is new in this league, and naturally modest, held him at third.

CLAYTON LONER.

BOSTON, July 27.—Boston came from behind in the seventh inning today and defeated Cleveland, 5 to 4. Foster's single and Smith's throw which got away from O'Neill provided the necessary runs.

## ATS ANYTHING HE'S EVER SEEN

"Knight of the Ring" Praises Tanlac.

Road 42 Years, Never Saw Its Equal.

F. Madden Makes Remarkable Statement.

I have never seen a medicine during my 42 years of my life that has built a man up and put him back like the Tanlac does," said F. Madden, a native son of San Francisco, residing at 2925 Broadway street, Mr. Madden is a well known and respected along the entire coast.

For forty years I was a traveling salesman and had just as good health as I could ask for, but in the past three years have been miserable ones for me. I was so nervous that I could not write, and I never knew it was to get a good night's sleep, and I became so nervous that I was just about to give up.

I read a statement one day about Tanlac and I got a bottle of it. I have taken two bottles and it is simply astonishing what it has done for me. Why, Tanlac has given me a wonderful appetite, and I am ever so much better now, and at the rate I am improving I will soon be perfect and to every way. I heartily recommend Tanlac to anyone suffering from nervousness, and I can assure you that I did, it certainly delivers me.

I am now in Los Angeles by the Tanlac Drug Co. and by leading (Advertisement).

## SEVEN-LEAGUE BOOTS USED?

Bandit Suspect Was in Three Places at Same Time, Testimony Shows.

Was Frank Alvarado, alias Frank Eller, in three widely separated parts of the city at the same time on the morning of last April 24? This is the question that confronted Justice Hinshaw Tuesday when Alvarado appeared before him for hearing on charges of assault with a deadly weapon and of robbing Carrie Hodge of \$154 Spence street.

The complaining witness identified Alvarado as the man who held her up at 12:30 a.m. April 24 near Stephenson avenue and Spence street and stabbed her twice with a large knife. However, John Forster testified that he and Alvarado were at the city limits and East First street at that time, and Samuel Huel stated he and the defendant were at First and Olive streets, three miles distant, at the same time.

The defendant was held to answer on both charges and was committed to the County Jail in default of \$5000 bail.

DIES OF INJURIES.

STOCKTON, July 28.—William Scanlan, 48, died at the County Hospital in this city tonight from injuries received when an automobile, driven by an unidentified man, struck his home and wagon, near the Mountain house, six miles west of Tracy. County Coroner Pope will investigate the accident.

## TUESDAY MORNING.

HOWS NEGLECT  
OF DISABLED.

regular ex-Service Men  
Bdly Treated.

Story Laid Before  
Senate Committee.

Wholly Unsuitable  
for Use, Claim.

WASHINGTON, July 27.—More  
dramatic story of the govern-  
ment's neglect of disabled veterans  
was laid before the Senate and House  
committees today with the bill  
continued to daily with the  
bill, urgently needed for  
the relief of suffering ex-service  
men.

SEN. A. PATTON of New York,  
chairman of the committee on  
the Senate, said that the facilities for  
the disabled ex-service men  
were given as a result of visits  
to hospitals in forty-four  
states.

He pointed out that to a  
large extent the government was  
responsible for the condition of  
these men, and that the hospitals  
were in a state of decay.

He said that the hospitals were  
in a state of decay and that the  
government was responsible for  
the condition of these men.

He said that the hospitals were  
in a state of decay and that the

## DAILY TRADE TALK.

## THE COUNTRY OVER.

## Plan to Build Foreign Business and Cement Overseas Friendships.

BY CHAPIN HALL.

Foreign trade cannot be built up except upon a basis of confidence, equity and understanding.

Cancellations, claims or rejections of merchandise at destination have been the oft-repeated experience of American merchants trading in foreign lands—an experience that has inflicted wounds which are still smarting.

In the opinion of Maurice Carasso, a foreign trade adviser closely identified with the well-organized effort to build up Los Angeles overseas business, this condition is in part responsible for the decrease in our exports and also explains why American merchants are not anxious to grant the long terms of credit which foreign merchants desire.

The faith of our merchants has been deeply shaken, he says, and it is perhaps due to this loss of confidence, as much as to any other economic cause, that our foreign commerce has decreased.

## COMMERCE CHAMBER AT WORK ON PROBLEM.

The Los Angeles Chamber of Commerce, through its foreign trade and harbor committee, is endeavoring to extend the foreign trade of this city and port and has been studying the best plan for the establishment of the confidence of the local and foreign merchants, to the end that import and export business may be developed.

Business men have been deeply impressed with the falling off of our exports, of the numerous cancellations and the large sums of money represented by American cargoes lying in foreign ports, rejected by the foreign merchants, due to the decline in wholesale prices, which led many of them to seek subterfuges to get out from under. Furthermore, American purchasers of foreign merchandise have often found that the merchandise imported was not up to standard, and they consequently suffered loss in such purchases.

This condition of affairs, having had for its first result a loss of confidence, has immediately led to a substantial decrease of commercial transactions, a condition which, added to the other economic events, brought our foreign commerce to a very low ebb.

It is to the end of finding the means of re-establishing the confidence of the local buyer of foreign merchandise, as well as that of the foreign buyer of American merchandise, that the arbitration committee of the chamber has been active. This committee, which is a subcommittee of the foreign trade and harbor committee, has been in communication with every chamber of commerce in every port of entry in the United States to ascertain what means these organizations had for the adjustment of any difficulty or dispute arising out of commercial transactions.

## CALL IN A SPECIALIST.

The consensus of opinion of all the chambers of commerce so addressed was that Charles L. Bernheimer, chairman of the arbitration committee of the Chamber of Commerce of the State of New York, a man who is known as the father of commercial arbitration, has devised and operated for a number of years the most practical and satisfactory plan of commercial arbitration.

Mr. Bernheimer, who is president of the Bear Mill Manufacturing Company, is now in Los Angeles and has consented to give to the Los Angeles Chamber of Commerce the benefit of his wide experience and advice. He addressed the foreign trade and harbor committee of the chamber at its meeting on Tuesday and has had several conferences with Mr. Carasso, chairman of the arbitration committee.

"The necessities of the time," Mr. Bernheimer told Trade Talk yesterday, "call for the finding of ways and means to make the commercial contract in foreign trade a safe one—safe to the seller, safe to the buyer and safe to the banker who finances the contract, insuring a square deal to the American and foreigner alike—and, in the event of difficulties and disputes that always will and do arise, offering, instead of uncertain litigation in foreign lands, a modern, economical time-and-trouble-saving and friendship-preserving method for their disposition.

## EXTENDING THE HAND ACROSS THE SEA.

"Chambers of commerce and other business men's associations in this country and abroad should be urged to establish, under their respective auspices, arbitration, mediation and conciliation committees whose functions will be to take in hand and dispose, if possible, by means of arbitration, mediation, conciliation and negotiation or moral pressure the differences and disputes referred to them by sister institutions or even by individuals.

"It is my belief that if the purchaser of merchandise were to undertake the examination of his purchase and the supervision of its packing through accredited agencies in the locality where the purchase is made or the merchandise shipped, thus eliminating fault-finding at destination in foreign lands, individual merchants would not hesitate to sell foreigners against thirty, sixty or ninety days' irrevocable letters of credit or even one of still longer maturity. The foreigner would then obtain perhaps as long a credit as is customarily given in domestic trade. The crux of the situation is the fault-finding at destination when adjustment is most difficult or well-nigh impossible."

## ESTABLISHING CONFIDENCE.

The arbitration committee of the Chamber of Commerce of the State of New York has been called upon to arbitrate disputes arising out of contracts between local and foreign merchants and handles cases referred to it by foreign governments, the Bureau of Foreign and Domestic Commerce, the United States Chamber of Commerce, the National Association of Credit Men and a number of trade and commercial organizations.

According to Mr. Carasso, the plan which Mr. Bernheimer advocates is a very simple and at the same time a very just one. When complaints are made and voluntarily submitted to the arbitration committee the complainants are called and, being both present, are given a hearing and frequently the cause of the complaint is then and there removed and the complainants leave entirely satisfied. Mr. Bernheimer was responsible for the passing of the Commercial Arbitration Act in New York, which makes the findings of the committee irrevocable.

The Los Angeles arbitration committee is endeavoring to operate under the plan advocated by Mr. Bernheimer, which he says has proved to be practical and satisfactory, and hopes to be able to establish the proper machinery which will provide the means for the adjustment of difficulties arising between Los Angeles merchants and merchants of foreign countries. This step will perhaps result in laying the foundation for confidence, without which business with foreign countries cannot be developed.

ST. PAUL (Minn.) July 21.—The harvest now is under way in the Northwest and farmers and bankers are eagerly watching the yield. Within a few days it will be determined to just what extent crops have been damaged. There is an improved feeling of confidence throughout the territory, and bankers are more optimistic than for months. The demand for seasonable merchandise has been brisk and in volume trade compares favorably with last year.

PITTSBURGH (Pa.) July 21.—The immediate future holds out promise of employment to many men in this district. Construction of bridges, buildings and roads is included in the program outlined for public work. Allegheny county is preparing for a \$25,000,000 bond issue to finance some of the projects. City officials have ratified plans for a \$2,100,000 boulevard and other improvements.

NEW YORK, July 21.—A distinctly firmer tone has been imparted to the whole textile industry by the brisk buying of next spring's woolsens at the opening showings of the American Woolen Company now in progress here. The company admittedly sets the prices for the entire trade and the fact that prices for 1932 were at the level fixed for fall goods this year or a trifle higher has had a reassuring effect.

LOS ANGELES STOCKS.

The main trend of the stock market is upward, according to best indications. In the Los Angeles market yesterday Goodyear preferred maintained its favorable position reached on Tuesday and sold steadily in company with small, heavy stocks at \$2.90. Other local industrials were in good position, notably California Edison at \$3.50 and Los Angeles Investment at \$1.25.

There was heavy trading in Gold Ore at 1 cent. Union oil moved up half a point to \$12.00 and Delaware Union was strong at 19.62 1/2 to 19.75. Associated was firm at \$9.00 and Republic Petroleum closed at \$9 1/2 cents. Twenty shares of Union Bank & Trust Company went over at 126.00 and that of First National at 100.00. Tom Reed declined from 75 to 70 cents with 80 the asking price at the close. Bonds were inactive at established prices.

BOND MARKET.

Particular emphasis is laid, by market people in the financial district, that the bond market appears to have reached a point where a day or so in the market and a narrow margin gives it the appearance of "hunger" for new issues. This has been remarked, time and again, in the last few weeks, and is considered a particularly good omen. The bond market has the appearance of having reached an equilibrium, to be on an even keel and in shape where first-class issues are in keen demand. The fact is not to be overlooked, however, that this is a day of discrimination, and investors are very prone to pick and choose.—[New York Times.]

ALFALFA MARKET.

Receipts of hay in the Los Angeles market for the past week were the lightest on record at this time of the year according to the market letter of the Alfalfa Growers of California, made public yesterday.

The explanation is that the alfalfa market is the breaking down of the middleman system, but that the alfalfa prices that are being received from the long depression are becoming more tangible.

The Association has been able to get some of the alfalfa growers to produce for all-water shipment, and has prospects for considerable additional business of this character. Taking the situation as a whole, a pronounced shortage in the production of the better grades of hay seems certain and growers are advised to produce as much first class hay as possible during the balance of the season.

There were 1900 tons of grain and alfalfa hay received on the Los Angeles tracks during the week covered by the report with 150 tons held over. The prevailing prices in Los Angeles were \$19 per ton for No. 1 dairy and \$15 for standard alfalfa. This compares with San Francisco prices of \$16 and \$14.

FIRST BURBANKS ARRIVE.

The first carload shipment of Northern Burbank potatoes has made its appearance in the local market. The prices for the first lot received for the first lot sold out of this shipment range from \$2.25 to \$2.35 a hundredweight and there is a good demand for them at present, coming mainly from the hotel trade. Ordinary spuds are only bringing \$1.25 to \$1.40 here.

TURLOCK CANTALOUPE.

This week sees the end of the Imperial Valley cantaloupe season and the beginning of melon shipments from the Turlock region. Turlock is having an especially prosperous cantaloupe season this year and 1931 shipments to date have already far surpassed last year's total. Three hundred and eighty-six carload shipments have been reported so far, as against 311 last year. They are bringing prices ranging from \$1.50 in the local market to \$4 and up in the East.

PERSONAL MENTION.

Thornton E. Grimes, formerly representative of the Guaranty Company of New York, in Washington, D. C., New York City and Seattle, is an addition to the staff of the local branch of the Guaranty Company. Although Mr. Grimes was transferred here only recently from the East, he is nevertheless well known among the bankers and brokers of this territory, having been engaged in the bond investment business here shortly after the war.

IN REVIEW.

B. G. Dawes, president of the Pure Oil Company, who was scheduled to sail for Europe yesterday, expressed his farewell opinion that

The difference between bad  
luck and good luck is the dif-  
ference between the man who  
invests wisely and one who does  
not.

The team work of Safety and  
Six Per Cent, as exemplified  
by the Term Certificates of the  
Southern California - Metro-  
politan Loan Association, has  
transformed many a small in-  
vestor into a capitalist.

6%

held on Term Certificates in sums of  
\$100 or multiples. Withdrawable after  
one year with 6% to date of with-  
drawal.

## NEW YORK STOCK EXCHANGE.

[BY A. P. NIGHT WIRE.]  
NEW YORK, July 27.—Weakness  
of various speculative specialties  
and a steady firm tone for stand-  
ard shares based largely on re-  
laxed monetary conditions, were  
sharply contrasting features of to-  
day's market. Leaders of the re-  
action group receded from 2 to 3  
points included. Prominent Steel Car,  
American Car, Pullman, Interna-  
tional Harvester, Central Leather  
common and preferred, Sears Ro-  
buck and Famous Players.  
United Drug, overshadowed all  
other issues, however, opening at  
an additional decline of 5 1/2 points,  
extending this loss to 20 1/2 at mid-  
day and finishing at a net recovery  
of 17 1/2.  
There was considerable mystery  
connected with the collapse of this  
stock until the last half of the ses-  
sion when it became known that  
Louis K. Liggett, president of the  
company, had placed his affairs in  
the hands of trustees.  
United States Steel was well sup-  
ported, traders evidently placing a

## ARGENTINE PLAN IS ADVOCATED.

Would Aid in Reconstruction, Banker Declares.

Stabilization of Paper Money Accomplished.

Caused Republic to Emerge from Monetary Chaos.

(BY THE ASSOCIATED PRESS)  
BUENOS AIRES, July 27.—Reconstruction of the monetary system of those countries whose currency has depreciated, on the plan followed by Argentina in 1933, is recommended by Carlos A. Tornquist, international banker, who was Argentine delegate to the Brussels financial conference last year. Adoption of this plan, he told members of the American Club at a luncheon here had fixed a permanent value for Argentina's then fluctuating paper currency and quickly enabled the country to emerge from monetary chaos into economic stability and prosperity. Many of the leading men in Germany he said, already were in favor of adopting a monetary reform patterned after Argentina's.

**MECHANISM OF PLAN.**  
Explaining the mechanism of the plan, of which his father was the author, Senor Tornquist said under the Conversion Law of 1933, by which it was carried into effect, a value of forty-four cents gold was fixed for the paper peso and vice versa. The value, he said, was fixed very much below par, because the depreciation of the paper money had become a permanent one and because values had become adjusted to the depreciation, "that is to say, that below the fluctuations liable to be produced by abnormal causes, the real value of the paper peso measured in gold was forty-four cents."

The public immediately responded to the law, having confidence in the plan with the result that the value of the paper peso became more and more stable and it ceased completely to fluctuate. When the country had obtained only a modest stock of gold, this stock was constantly increased, from barely \$3,000,000 in 1933, \$30,000,000 in 1934, to \$470,000,000 in the present day. Unchecked circulation of \$23,000,000 paper pesos was assimilated and placed on a parity with the emissions subsequently made on gold basis. Today, he said, Argentina had a paper circulation of about 1,350,000,000 pesos backed by a metallic guarantee, which, according to the rate established by the law, amounts to 80 per cent.

"If, however," he continued, "the existence of such a high proportion of yellow metal gives me the right to affirm that Argentina money is today among the soundest in the whole world."

The result had been that from the time of the enactment of the law, foreign capital had flowed into the country on a large scale, production multiplied, commerce attained extraordinary proportions, and the production of goods was increased. "The Argentine production today is one of the essential factors in the world's markets in providing foodstuffs for mankind and raw materials for manufacturers."

**GENERAL STRIKE IS SIGN OF MOURNING.**  
ITALIAN UNIONS WALK OUT IN PROTEST OVER KILLING OF COMMUNISTS.  
(BY THE ASSOCIATED PRESS)  
ROME, July 27.—Postmen, bakers, tram workers, and cabmen obeyed the order for a general strike issued by the Confederation of Labor to show sympathy for the death of the Communists in yesterday's fight with the Fascist police. However, the majority of shops are open, and trains are running. Severe precautions have been taken by the police to prevent rioting in the cities. So far all is quiet here. In the meantime, the President of Parliament, Denciole, is arbitrating for a truce between the Socialists and Fascists and a peaceful result is expected tomorrow.

A new record for the slowest postal delivery was yesterday made by Venetian postal clerks when a postcard mailed on June 15, 1932, was delivered yesterday at Loreo near Adria in the Venetian province. The distance from Venice is about twenty miles and Giuseppe Bascotto, the owner of the postcard, has presented it to the municipal museum of Adria.

**REORGANIZATION OF JUDICIARY PLANNED.**  
WILL BE PRESENTED TO HARDING SOON FOR TRANSMISSION TO CONGRESS.

(BY A. P. NIGHT WIRE)  
WASHINGTON, July 27.—A comprehensive plan for the reorganization of the Federal judiciary to meet the growing business needs of the country and clean up congestion of liquor cases, probably will be presented to President Harding for transmission to Congress within a few days, Atty.-Gen. Daugherty said last night.

The new scheme was worked out by Mr. Daugherty and a special committee of Federal judges and district attorneys, with the advice of Chief Justice Taft.

The creation of additional judges is contemplated, but not as many at this time as had been originally considered in order to keep the expense as small as possible, Mr. Daugherty said.

**BUSINESS REVIVALS.**  
(Associated Press)  
Weaver Roof Manufacturing Company, Bryn Mawr, Pa., president, 339-341 East Second street, Broadway 784. Ask your dealer for Weaver roofs, water-proof papers and paints.

**BOMBERS BREAK UP GOOD TIME.**  
Lisbon Festivities Halted by Three Explosions.  
Attempt also Made to Assassinate Judge.

Printers on Strike Believed to be Dynamiters.

(BY THE ASSOCIATED PRESS)  
LISBON, July 27.—The festivities of St. John's Eve were interrupted by the explosion of three dynamite bombs of enormous dimensions, placed in different parts of the city, outside three printing offices, of which the printers are on strike.

The first explosion was so terrific that although Lisbonites are becoming accustomed to bombs, real panic was produced among the merry-makers in the streets of the Bairro Alto who, leaving their quest for balls and bonfires, fled into the lower part of the town. Although there were no victims the force of the law brought down the ceilings of the houses near which it burst. A dense and suffocating smoke filled the whole street and many people faint.

Another bomb did less damage in the Rua dos Corrieiros, and the third, which was of the same powerful type as the first, burst near an air ball seriously wounding three persons. Some arrests were made but as yet no real clue has as yet been discovered.

Another case of attempt against the life of a judge of the Tribunal of Public Security was also made about the same time, two shots being fired at him in the street without wounding him.

**OBREGON LOSES FIGHT ON ARTICLE XXVII.**  
MEXICAN DEPUTIES VOTE AGAINST ALLOWING PRESIDENT RIGHT TO ADJUST.

(BY A. P. NIGHT WIRE)  
MEXICO CITY, July 27.—The Chamber of Deputies last night voted down a request by President Obregon that he be granted extraordinary powers to adjust Article XXVII of the constitution, which nationalizes oil deposits.

Yesterday morning President Obregon called a joint conference of the leaders in both houses and explained the necessity of immediate action on Article XXVII, as well as the reasons for his request.

The action of Congress last night in view of political observers here as marking a definite split between President Obregon and his party.

**INSURANCE COMPANY'S LICENSE RESTORED.**  
DENVER, July 27.—The license of the Mountain States Insurance company, revoked July 2 by State Insurance Commissioner Earl Wilson, was restored here today by District Judge Bouck. Judge Bouck's decision was reached after an eight-day hearing on the company's appeal from the order of the insurance commissioner, revoking its license.

Proof, Judge Bouck said, was not sufficient to sustain the charges made by the insurance commissioner that the company had violated provisions of the insurance code.

**SEEK MORE FUNDS FOR PUEBLO CITIZENS.**  
DENVER, July 27.—Telegrams were sent by the Denver Civic and Commercial Association today to the United States Chamber of Commerce, outlining the conditions at Pueblo, and asking for \$225,000 additional funds would be needed for relief of flood sufferers.

The association also sent telegrams of a similar vein to President Harding and Senators Phillips and Nicholson of Colorado.

union affiliations and to no others.

"Neither the Hammond Lumber Company vessels or any other vessels belonging to the Shipowners' Association are entitled to licenses or fishing, including mates and engineers, unless they resign from their present organizations, which is a condition affiliated with the American Federation of Labor," said Mr. Hammond.

"The Shipowners' Association will not employ licensed fishermen whose organizations have been affiliated with labor unions."

"The conservative members of the engineers' and mates' associations have been the chief troublemakers. These organizations have made in affiliating with labor unions, whose members are not permitted to work in the United States, are employed to sea as seamen. These men are resigning from those orders and accepting employment on steamers belonging to the Shipowners' Association of the Pacific on the terms and working rules issued by that organization."

**FISHERMEN STRIKE OFF.**

Scores of purse-seine tuna fishing boats are again at sea following the reaching of an agreement between the fishermen and cannery several days ago. After a strike lasting several months the fishermen voted to accept the cannery's offer of \$18 per ton for blue-fin tuna, and the fishermen rescinded this week, giving employment to hundreds of men and women.

Negotiations are still in progress looking toward the end of the strike by the blue-fin tuna, and the cannerymen fishermen have been on strike for months over the price to be paid by the cannery for the fish.

Following the end of the strike ended in a deadlock several weeks ago, but the fishermen rescinded this week at the instance of the California Fish and Game Commission and the Chamber of Commerce of Los Angeles Harbor, which was the first San Pedro body to declare for the open shop.

The Japanese fishermen have demanded \$125 per ton for albacore. Neither side would give ground until Tuesday, when the Japanese offered to compromise at \$150 per ton.

The end of the strike. It is expected that the cannery will reach a decision today in regard to accepting the declining offer of the orientals. Albacore canneries are still busy, but some of the smaller plants are operating on tuna following the end of the strike of the tuna fishermen.

**Doctor Guilty of Violating Narcotic Law.**

Charged with having under his treatment a total of eighty-eight drug addicts for whom he was prescribing in violation of the State narcotic law, Dr. Carroway Gay, of an office at Sixth and Los Angeles streets, was arrested yesterday by Inspector Boden of the State Board of Pharmacy.

Dr. Gay was found guilty by Police Judge Charles E. Smith and remanded until today for sentence.

“Incontestable proof that pictures can be sent by telegraph as easily as ordinary English.”

**— CALLED NEARLY PERFECT.**

After reproducing the code number used to transmit the pictures, accompanied by a line drawing and a copy of the “Times” telegraphed copy of the original fatal picture, the Boston Sunday Globe says:

“The times of a later date printed side by side, the original photograph and the sent-by-wire reproduction are shown. The differences are so slight that a careful study is needed to discover them: to the unaided eye they are indistinguishable. The photograph printed twice.”

“This remarkable faithfulness of the telegraphed pictures is like the editor of the Ventura Post to observe: ‘The only difference between the telegraphed photographs and the originals, judging by the Los Angeles newspaper’s experience with the Dempsey-Carpenter pictures, is that the telegraphed ones are somewhat clearer, better outlined and more convincing.’”

The Fourth Estate and the Editor and Publisher, newspaper trade organs have also devoted some space to the matter.

Girl Accused  
as Babe Killer.**

Miss Erie Mullane, who is charged with slaying her new-born babe last February 18, went to trial in Judge Houser’s court yesterday. The same women and girls who attended the murder trial of Edith Lundberg and many new faces occupied the spectators’ seats. Miss Mullane and Mrs. Lundberg sat side by side while Judge Houser was instructing the Lundberg jury. Miss Mullane was neatly attired in a brown suit and a black hat trimmed with green. She removed her hat when her case was called, and sat with her attorneys, Verga, Wilson and Wells. Dist. District Attorney Randall is prosecuting. He asks for conviction on charges of murder in the first degree. The defense will be insanity.

Miss Mullane, who was very ill after the death of her babe, looked much improved yesterday. Most of the time she sat with her head leaning on her hands, two prominent features had been examined at the same court adjourned.

**LOS ANGELES “TIMES.”**

Simply telephone your vacation address and the paper will be sent wherever you may go.

**FICO 766, 18991.**

There are piles of mail unopened at the little home in Regina Lane, Los Angeles, "Brother Isaiah" because there is no one there to open it for him now, and Miss Duranton, "Brother Isaiah's" sister, because there is no one there to open it for her. The letter from Miss Duranton, which was enclosed with her newly acquired husband. When she will return to Los Angeles, "Brother Isaiah" will be able to tell her that neither Mr. Cudney, the girl's mother nor the police were looking for her, last night.

Following the complaint to the police that the girl was missing, Officer McAuliffe of the East Side Station, Los Angeles, "Brother Isaiah's" home in Regina Lane in an effort to find the girl. The mother had received the letter Tuesday morning, and was assigned by "Mr. and Mrs. I. W. Barber," which advised Mrs. Duranton to "Brother Isaiah's" home in Regina Lane. Mr. Barber was on her way to San Francisco. The telephone was filed the night before. "Brother Isaiah" told the police that Miss Duranton had left Los Angeles for her home in Regina Lane and had said she would be back to work Tuesday morning. She failed to return, however, he said, and he has not seen her since.

Last night the mother declared that her daughter has not been engaged to any young man so far as she knew. It was said at "Brother Isaiah's" place, however, that Duranton had let it become known that she and Mr. Barber were to return to Los Angeles together. She had never introduced Mr. Barber to any of her people, police officers, his existence a secret, police learned.

Both Mrs. Duranton and "Brother Isaiah" are awaiting word from the United States secretary and his confidence that she will soon return with her husband. The "Miracle Man" also expressed the hope that she would return to her duties at the Regina Lane home.

The purported heifer probably will begin a series of meetings at Venice on Saturday or Sunday, according to his attorney, Lin Wilmar, Price, who said yesterday that he invited persons at the beach has been accepted.

**LOOTS HOUSE, THEN DINES IN KITCHEN.**

After he had ransacked every drawer and bureau and obtained from three small strong boxes about \$1000 worth of jewelry, a burglar last night walked leisurely into the kitchen of the home of Mrs. E. M. Childers at 831 North Broadway, Los Angeles, and prepared a meal for himself. Mrs. Childers notified the police of the burglary and reported the disappearance of her police, a missing with the exception of the food.

**TWO WIVES MISSING.**

Mrs. Eva Hutchings, age 16 years, and Mrs. Louise Beagle, sisters, both of 1014 North Broadway, Los Angeles, yesterday reported to the police as missing from their homes. The husband of Mrs. Beagle, made both reports. He stated that he knew of no reason for their disappearance or their probable destination. He said they were last seen together near the intersection of Broadway and Main streets, furnished with a complete description of both women.

What promised for a time to become a serious riot was quelled by the police at the Plaza yesterday afternoon when scores of Mexicans who witnessed a struggle between a policeman and a priest began fighting among themselves.

Police are at a loss to explain the connection between the arrest of the one man and the free-for-all fight in which more than 200 Mexicans engaged. The trouble was stopped without serious injury to anyone, the police stated.

It was when Officer Weaver, in plain clothes, was approaching a group of Mexicans gathered at the Plaza, Foster, 26, who attempted to seize the policeman a tire, that the trouble started.

suspecting that the tire had been stolen, Mr. Weaver attempted to seize it. Foster under arrest. The latter broke away and ran to Main and Court streets, where he was recaptured. There he gave the officer a fight, and scores of Mexicans, witnessing the struggle, began the near riot that called out more than 200 scores of detectives from Central Station.

Serge. Christensen and Officer Theodore McAuliffe, who rushed to the aid of their sticks, in stopping the fight.

Foster was booked on a charge of petty larceny.

**Lips, Anderson Sued by Bunko Worker's Son.**

The "Worker's Son" who was arrested yesterday for taking a bribe, and W. J. Anderson, who lost trial on the same charge in December, are now facing a new pending, must answer to the complaint of Mark R. Furray, 17 years of age, seeking to recover \$7760, which figured in the bribery charge. Judge Burnell decided yesterday that Lips and Anderson demurred to the complaint, but Judge Burnell overruled the demurrer.

Mark R. Furray is the son of Joseph Furray, convicted bunko man who is purported to have given Lips and Anderson \$10,000 for his release from custody. Of this amount \$7760 belonged to Mark and, with this he expected to complete his education.

Furray's money was drawn from the bank by his mother, Dede Furray, who testified she gave it to her husband when he was in custody.

The complaint states that Lips and Anderson promised to return \$7760 to the boy, and failed to do so. Furray's attorney, F. C. Hill, was substituted as counsel.

**FOR Y.W.C.A. CAMP.**

The week-end party for Camp Fire, which was held at the Y.W.C.A. will leave the Union State depot, Fifth and Los Angeles streets, at 10 p. m. Saturday night. The party will register at 941 South Figueroa street before Friday night. The camp has been organized by the Y.W.C.A. and women, many of whom are on vacations of one and two weeks.

## ARRESTS CHECK ROBBERY PLOTS.

Thirteen Assorted Bandits Nabbed in Raids.

Two Served Time With Phil Alquin, State Police.

Crimes Planned to Free Pal from Cell, Says One.

A bank messenger robbery, burglary of the office of the Yellow Taxi Company and the entering of a number of private homes were prevented by the Los Angeles police yesterday with the round-up of thirteen assorted bandits and burglars, all of whom were nabbed in a series of downtown raids.

Three of the men held at the City Jail are said to be members of the notorious Howard-street gang of San Francisco and the police learned through the confession of one of this trio, they say, that the proceeds of the several jobs they had planned were to be used to secure the freedom from San Quentin prison of "Red" Murphy, a notorious "gangster." Just how this was to be brought about the confessing bandit suspect did not say.

All the suspects are held incommunicado and the names of three of them are being kept secret by the police until the case against them has been completed. Two of this trio have served time in San Quentin with "Little Phil" Alquin, who was killed by Detective Sergeant John J. Fitzgerald in Los Angeles on June 11, the police say.

**ROBBERY PLAN.**  
According to the asserted confession of one of these men the band had planned to hold up and rob the messenger of a downtown bank yesterday. This haul would have netted the gang about \$500, the police say. The office of the taxi company were to have been the next object of their attention, it was said.

The round-up of the gangster suspects was made by Detective Sergeant Ritz, Harris, Smith and Hamilton and State Officer Peoples.

Two of the men, Charles Quinn, 29 years old, a news vendor, and David O'Connell, a sailor, were taken in a raid near Seventh street and Broadway. A raid at Sixth and Main streets a short time later netted three others. They gave the names of E. August, 22 years old, Albert Jones, 31, and Ernest Edwards, 21. The first two said they were news vendors. Edwards says he is a baker.

**NEWSBOY NABBED.**  
At First street and Broadway the police arrested Frank Elmide, age 14 years, a newsboy, and at a place on East Fifth street they took into custody two men giving the names of Fred Bloomer and Sam Huer. From a hotel at Fifth and Wall streets the officers took George E. Karr, 31 years old, and Tom P. Seeger, 21. All were held on suspicion of burglary.

Investigation of the reported hold-up and robbery a few nights ago of J. W. McClure, 1184 Ingraham street, developed the clue that finally led to the round-up of the accused men.

**POCKET PICKED ON CAR.**  
Pickpockets, operating on a street car, in the downtown district late yesterday, robbed Russ Radovich, 712 Main avenue, of \$119 in traveler's checks, according to a report made to the police.

The demands made on this bank by Progressive Industrial Institutions

are conclusive proof of the worth of its service.

No sharp dividing line can be drawn between the modern bank and the institutions which it serves. Their interests are identical and their activity is co-operative toward the common good.

Particularly true is this of the relationship existing between the HELLMAN COMMERCIAL TRUST AND SAVINGS BANK and its customers. Its twenty-four-hour service vastly extends its usefulness. Its solid worth, implied and insured by the name "HELLMAN," whose precedents are as old as modern California, is a firm, immovable foundation on which to build.

## SAN GABRIEL BLOSSOMING ROSE.

Quaint, Patrician Valley City Maintains Distinction on Hundred and Fiftieth Birthday with Everything from Millionaires to Art, Culture and Progress.

BY ALMA WHITTAKER.

San Gabriel, like a good many old ladies, I know, is getting thoroughly dashing. Grandma-sit-by-fire? Not if she knows it. On her hundredth and fiftieth anniversary she is blossoming out in all directions, not merely with a stylish celebration, but with everything thoroughly voguish from hats to lingerie.

This gorgeous pageant, spectacular dramatic, artistic, scientific is just an artful way of drawing attention to the fact that San Gabriel is a city of patrician and ancient traditions, a city of the "old families" which, however, far from running to seed, has maintained its distinction with new blood, its prosperity with business acumen, its charms with modern culture, beauty treatment, shampoos, manicures and physical exercise and fashionable clothing. Voila, seniors and seniors, you are bidden to the sumptuous hospitalities of a prosperous and patrician menage and the honor is yours.

Athabasca, her worthy and but slightly less aristocratic neighbor, is not unmindful of the present, attaching to the juxtaposition and its collaborating occasion "Time" when Athabasca felt a trifle patronizing towards San Gabriel—the old Senora had not kept up the inheritance as well as she might, she had become a little slack, fallen behind in modern sanitation and other progressive improvements. But two or three years ago San Gabriel blossomed out with a newspaper of its very own—the San Gabriel Sun and everybody knows what an inspiration a newspaper is. At all events, thereafter Senora San Gabriel reviewed her assets. John McGroarty's Mission Play had thrust her into the limelight, she perceived the exposed shabbiness, and proceeded to take herself in hand.

**DASHING COMMUNITY.**  
And now, Presto! Behold her a dashing thriving community. Her citizens have bought all the land surrounding the Old Grape Vine, upon which will soon rise a magnificent new Mission Playhouse, set in a wonderful park. Even now descendants of the original residents are making fine adobe brick-far San Gabriel means to preserve her ancient distinction, nicely amalgamated with modern elegance and convenience.

And right opposite a big modern business block will soon arise, erected by San Gabriel's pet modern millionaire, Walter Temple. See her eagerly in acquiring a fine progressive benevolent modern millionaire with ideals. For Mr. Temple is no ordinary millionaire. A few years ago he was tempted to sell his walnut ranch at Puente and later purchased the adobe ranch at the corner of San Gabriel Boulevard and Lincoln avenue. It was a lucky move. His little son found a gas jet and lit it on a seat by hill and mentioned the fact to the father. Now there are four gallons of gas pumped up thousands of gallons a day on that site, and members of the Temple family spend most of their time thinking up pleasant and generous things to do with their wealth.

Mr. Temple has offered to build San Gabriel a new City Hall. He has already presented it with a war memorial, besides contributing generously to the purchase of that grape vine land, the coming mission

pageant, and other needed luxuries. He is donating the memorial tablet to be dedicated by Bishop Cantwell of the diocese of Monterey and Los Angeles, Sunday, to commemorate the original spot where the first San Gabriel Mission was located. Incidentally, that there may be no jealousy, he has bought a beautiful house in Alhambra, presented a hembra with a swimming pool and a new theater.

**DREAMS OF PROSPERITY.**  
But talking of oil, according to that same ebullient San Gabriel Sun, residents are sniffing oil in their backyards all over San Gabriel and dreams of prosperity are running wild.

But just to show what discrimination San Gabriel showed in the acquisition of her pet millionaire, Mrs. Temple was a Felix Gonzales, one of the original old Castilian families, and her daughter, Agnes Evelyn, takes the part of the bride in the Sunday pageant in a gown faithfully modeled upon that of her great-grandmother.

Like-wise you will observe that the six bridesmaids are also lovely young acorns of the old families in San Gabriel.

And before we leave the pet millionaire, we must not forget that he also is donating the statue of Father Junipero Serra, which will be placed in the churchyard cemetery, for which reason, perhaps, that old and once forlorn-looking God's acre has been groomed up and furnished with vines and flowers out of all recognition.

Not to be outdone, the San Gabriel Country Club is very much in line. It, too, is enjoying revivalist ecstasies. The old course has been transformed into a championship course of the first genre, grass greens, new water system, and just now launching a new bond issue of \$50,000 for clubhouse improvements. A sumptuous new dining room, kitchen, ladies' and gentlemen's lockers, card room, etc., but mark you, all the rustic charm of the old building to be carefully preserved, as Architect Burns is particular to point out. No wonder the golf association has premises for the championship event next spring.

And as a result of this new and beautiful country, residences are bobbing up all over the place, and old residences remodeling and enlarging. It's in the air—everybody's doing it.

**DISTINGUISHED MEMBERS.**  
William Meade Orr, another millionaire person, is the new president of the country club, which has gone in for a bureaucratic executive board which can act upon improvements without consulting directors and members. And among its many distinguished members one finds F. Q. Story, of fame and affection, still taking an abiding interest in the club's well-being. They have a star golfer in "Bill" Bacon, who, to add glamor to the times, recently brought home a bride after years of scintillating bachelorhood.

San Gabriel is also planning for two distinguished Sunday bands to provide high class concerts for that new playhouse park.

Oh, yes, and after years of unsuccessful coining, the railroad company has given San Gabriel a crossing opposite the country club, another respectful recognition of her rising importance.

San Gabriel is likewise the home of the new cucumber hothouse, which is to provide the luxurious hotels of Southern California with cucumbers the year round, a most impressive acreage under glass.

And, to be quite up to date, a motion-picture corporation has started business in the old Masonic home and talking in easy millions.

As for San Gabriel's police force, did they not recently cover themselves with glory by catching a bold, bad band of wicked bandits that had been robbing and terrorizing the vicinity for months. They did not just go after them, you understand—they caught 'em.

**EVEN MURDER MYSTERY.**  
San Gabriel even has its great murder mystery. A few weeks ago masked bandits entered the home of a wealthy Japanese rancher, a Stanford University graduate, and killed his wife. Far Tokio is rocking with the news.

And to make the ecstasies complete the wife of Trustee Brownrigg has had all her jewels stolen—diamonds by these same bandits. If you haven't a Duchess or a film queen to have her jewels stolen, what could be better than a trustee's wife?

Take a drive down San Gabriel Boulevard and observe the growth of the new city center. Shops and business houses going up, a keen rival to the old business center of the mission. Even as Seventh street once gave Broadway a jealous twinge in growing Los Angeles.

In fact, San Gabriel is just bursting with new prosperity and progress. Her land for miles 'round is a wondrous spectacle of neatly-tilled, rich soil. Not only new residences, but new ranches are breaking out all over the landscape. A wealthy cattleman named West has just announced his intention of locating there and putting up a sumptuous ranch residence.

Time was when there wasn't even one welfare association. Then a little band of benefactresses, headed by Dr. Ruth Purcell, started a civic settlement. About that time The Times published an article about San Gabriel, exposing some of the poverty and wretchedness and appalling lack of hygiene among the Mexican population of the valley city. San Gabriel was very angry at the time. But it got busy. There are now two healthy rival settlement associations, and incidentally some of those poverty-stricken old hovels are now flourishing and prosperous.

**PROUD OF PURCELLS.**  
And perhaps the most families of which San Gabriel is more proud than any other is that of the Gervaise Purcells. For forty-one years the Purcells have lived and thrived in the picturesque old adobe ranch home near the mission. There they have reared five sons and two daughters, several of whom have won distinction. Maj. Jack Purcell is now in Washington on an important government mission. Harold Purcell and his wife have just returned from the Philippines. Dr. Ruth Purcell is a distinguished woman physician and so on. And just at present Miss Purcell is entertaining no less than three daughters-in-law and one grandchild under the paternal roof, a roof that covers the sort of family harmony which has made America great. That home is a happy and even more delightful contrast to "The Old Nest" of which Mrs. Gervaise Purcell might have been the heroine, except that her chicks come home to roost oftener and unmurged.

And incidentally, the famous old Purcell ranch is blossoming out

An entirely different and distinct CLOTHES SHOP opens its doors to the men of Los Angeles tomorrow. This store is the only one of its kind west of Chicago, and the first of its kind on the Pacific Coast. ## WOULD PULL UP PURSE STRINGS.

(Continued from First Page.)

There is very little chance that the coming special session of the Legislature will be permitted or will for one minute desire to consider any legislation whatsoever requiring the expenditure of funds. It is also equally certain that the people should look with extreme disfavor upon any proposed additional bond issues.

"Whether we like it or not, this fact strikes directly at the power development program of the League of Municipalities, for there seems to be no chance for the setting up of any additional board or bureau in California having to do with the financing of State bond issues.

"It has become more and more evident during the last sixty days that some plan is to be proposed for development of power within California, founded upon financial collapse of the State with various cities in carrying the financial burden of this development, and inasmuch as the city of Los Angeles is the largest holder of power in California, and would probably be the first to use the State bonding capacity for the carrying of the development of power within California, an initiative measure looking toward the establishment of a State power bureau seems impossible of passage.

"Nor is this all. There are innumerable additional expenditures urged and to be urged to eat up the taxpayers' money. There are road bonds, building bonds, irrigation bonds, with others too numerous to mention."

A man giving the name of William J. Fryer, and who told the police he is a salesman for the Pacific Steel Products Company, 211 West Sixteenth street, was booked at the City Jail yesterday on a charge of operating an automobile while intoxicated. The police say Fryer drove his car into another automobile at Eighth and Spring streets, damaging both machines. He was arrested by Officer Porter.

## Jury Hearing Damage Suit to View Film.

The trial of the combined damage suits of Margaret M. Billie, Irma E. Robinson and T. D. Sayre, who were seriously injured when a Southern Pacific gasoline train collided with a truck of the Harris Truck Company today when Judge Myers and the jury will attend a cinema show.

The picture to be shown is the results of a collision. With the exception of the actual collision, the picture will duplicate the accident in which three persons were injured. The aggregate damages sought by the plaintiffs is \$50,000.

When the truck struck the gasoline car, there was an explosion and the plaintiffs were burned.

## DROVE AUTO WHILE DRUNK. IS CHARGE.

A man giving the name of William J. Fryer, and who told the police he is a salesman for the Pacific Steel Products Company, 211 West Sixteenth street, was booked at the City Jail yesterday on a charge of operating an automobile while intoxicated. The police say Fryer drove his car into another automobile at Eighth and Spring streets, damaging both machines. He was arrested by Officer Porter.

## TRIAL DATE RESET.

Arizona Woman, Accused of Slaying Husband, to Face Court Soon.

Date for the trial of Mrs. Elsie McLennan, charged with the murder of her husband, Robert McLennan, who died here several weeks ago of gunshot wounds inflicted in Phoenix, Ariz., has been reset by stipulation for August 20, it was announced yesterday at Phoenix where the Attorney-General of Arizona has been enlisted to aid in the prosecution.

Because of this change in date the intended visit to Los Angeles by Asst. Atty.-Gen. Hill has been postponed. He has telegraphed to several persons here, however, for information regarding the case.

Dr. Robert W. Miller, who attended Mr. McLennan while the latter was at the Santa Fe Hospital here, received a message asking for all details he could supply. A. G. Smith, a close friend of the dead man and also a member of the same local union of the Brotherhood of Railway Trainmen to which McLennan belonged, yesterday received a similar telegram.

An important witness, who talked frequently with Mr. McLennan while the latter was at the local hospital, has been located by the authorities. It became known yesterday that he can be located, however, the mortally wounded man did not disclose the identity of his assailant, merely remarking he himself did not fire the shot.

# POTATOES TODAY, IS CRY.

Cafes and Dealers Push Sale of "Spuds."

Summary of Purchasing Now is Pointed Out.

Governer Leads Way in Plan to Help Growers.

It is Potato Day. Hotels, restaurants and dealers throughout the state are prepared to push the sale of spuds that California growers have suffered heavy financial losses through the disposal of their product on the home market.

Gov. Stephens, who proclaimed Potato Day, said yesterday that he and other state officials have been through the disposal of their product on the home market.

They California family financially able to do so should purchase the best potatoes raised in California. It was stated following the meeting of growers called by the California Vegetable Growers' Association. At the meeting an expression of appreciation was addressed to the state executive for the aid he has given the growers in designating today as Potato Day.

**BUYING INCREASES.**

Thousands of \$50,000 sacks of potatoes are ready for the market today during the rest of this month. There was a marked increase in buying yesterday and figures indicate the consumption of potatoes in various parts of the state.

Buying will go far toward relieving the burden forced upon the growers through the imposition of a 10 per cent increase in the rate, said James Britt, Deputy Market Director. He also stated that the excessive freight which has prevented growers from shipping to distant markets has caused a loss of more than \$100,000 to Southern California growers.

Prices are selling at lower rates now than they will later on. There is real economy for the consumer at the present low rate, said Mr. Britt. "A double sum is saved in making purchases now for not only is the consumer saving money, but he is aiding the grower and helping to avert potato shortage next season. Many growers have abandoned the plantings of all crops and others may do so under conditions improve."

In the losses sustained by growers, he added the much greater loss involved in depreciation of value through abandonment of planting, said Thomas O'Neill, editor of the California Vegetable Growers' Association. He added: "When consumption will help the grower, it is nothing less than the duty of every loyal Californian to support the Potato Day movement."

In Chamber of Commerce and the hotel have asked a general survey of Potato Day.

Hotel experts have provided recipes for the making of warm-water dishes, such as salads, dressings and the like, in which the potato predominates.

In your supply of potatoes to eat, the Chamber of Commerce and the hotel have asked a general survey of Potato Day.

Mrs. Letty Farrell.

## OUTING FOR WOMEN.

Business and Professional Workers to Use Camp Estelle Next Month.

Camp Estelle, the Y.W.C.A. camp for young women, in San Antonio Canyon, will be opened to business and professional women during the month of August, according to an announcement made yesterday at the club headquarters.

The camp is being occupied by high school girls, during this month. Registrations for the business and professional women were opened yesterday at 841 South Figueroa street. The first big party will leave the White Stage Depot, Fifth and Los Angeles street, next Saturday at 1 p.m. The trip from Camp Estelle will be made aboard.

Tents have been provided for dressing purposes and comfortable cots, for sleeping out of doors, have been furnished. Recreations at the camp include hikes to Icehouse Canyon, High Falls, the Ridge, Lookout Station, Kelley's Cabin, Old Copper Mines, hydraulic mines, Ontario Peak, and to Old San Antonio. The cost of the outing to the working women amounts to \$5 for transportation, round trip and \$10 per week for board.

**How to Reach a Ripe Old Age.**

If you would reach a ripe old age, do not worry, take outdoor exercise daily, adopt a diet suited to your age and occupation, keep your bowels regular. When medicine is necessary to marry the bowels, take Chamberlain's Tablets. They are mild and gentle. (Advertisement.)

## RIGHT TO "RELAX" IS QUESTION.

Problem Raised in Hearing of Woman Arrested After Auto Crash.

If a man may go out occasionally for a—well, a little relaxation—why not a woman?

This question arose yesterday at the hearing of Mrs. Letty Farrell, who was driving the ill-fated automobile once owned by "Bluebeard" Giffman, on Saturday morning when it crashed into a cigar stand at First street and Broadway.

Mrs. Farrell had just been held to answer by Justice Brown on a charge of driving an automobile while intoxicated, when John L. Richardson, defense attorney, entered a motion to have his client released on his own recognizance.

The attorney stated that Mrs. Farrell, because of the arrest of her husband, Paul Farrell, had been very sad of late, and that "very likely her actions on the night of the unfortunate affair, were occasioned by this fact."

After consideration, the court released Mrs. Farrell until her case comes up in Superior Court.

Patrolmen Bernoson and Halder testified that they heard a crash at First street and Broadway on the morning of the reported wild ride into the city, and hurried to the scene. They said they picked up a half pint of brandy and George Ruprecht, a deputy sheriff and a stenographer in the Sheriff's office, who owned the car, and arrested Mrs. Farrell.

They said Deputy Ruprecht was knocked unconscious. Both were taken to the Receiving Hospital. Dr. John W. Crossan, who attended them, testified both the man and woman were intoxicated.

## TO PRESENT PLAY.

Fugitives from Russian Reds to Depict Life in Armenia.

"Namook," a play written by A. Sheryanzade, Armenia author, is to be presented Saturday evening in the Gamut clubhouse by Mrs. V. Melikian, assisted by Mr. and Mrs. S. Boudagian, the latter being Mrs. Melikian's daughter.

These Russian-Armenians were driven from Russia by the Bolsheviks who seized all their possessions. Refuge was found in India and the trio then continued to China and Japan, where they presented various Russian and Armenian plays. They recently arrived here from San Francisco.

"Namook" is a play based on Armenian life and is replete with pathos. Two comedies will complete the program. The mother has been in the stage for thirty-five years and was head of the Melikian Company in Russia. Mrs. Boudagian began her stage career when 7 years old. She is a graduate of the University of Moscow.

**REAR, ROE WATCHMAN.**

Richard Kirkham, 1135 Delaware street, the watchman employed by the Merchants Fire Dispatch, who was robbed and beaten by two bandits at a building Mr. Kirkham was guarding, at 810 South Flower street, early yesterday morning, was treated at the Receiving Hospital for lacerations on his face.

Children's Nainsook Combination Union Suits 'Way Less 49c

—Maybe you've seen these comfy little white nainsook garments at their regular marking and so realize just how economical it is to buy them for only 49c!

—They are well made, strongly taped and plenty of buttons. Low neck, sleeveless, knee length style and may be worn by boys or girls. Sizes from 2 to 12 years.

Main Floor, North Building—Jacoby's.

Stock Reducing Sale of 150 Little Girls' Dresses \$1.29

—Dresses of pretty styles in frocks of plaid or plain gingham that are embroidered, piped or button trimmed and made with anubas and pockets.

—They are in pink, blue, green, tan, lavender and yellow.

—Sizes 2 to 6.

Stock Reducing Sale of Boys' Play Suits at . . . . . 59c

—They are made of mailman blue khaki in a good summer weight. Sizes 2 to 7.

Stock Reducing Sale of Tots' Organdy Hats at . . . . . 59c

—Cute bits of organdy in sizes to 4 years. In pink, blue, lavender and rose.

The Floor of Youth—The Fourth—Jacoby's.

Scranton Curtain Nets . . . . . 29c

—The new curtains will cost a pleasantly small sum if you use this pretty lace and Madras curtaining.

—And, remember, we make plain curtains free if you buy materials here.

Second Floor, South Building—Jacoby's.

Shop by Mail!

## In the Basement

A Two-Price Sale of Gingham Frocks—\$4.98 and \$5.98

—You will like the way they fit and particularly will you like the way they are made!

—The clever "wearable" styles will win your instant approval and you will feel a lasting satisfaction as you realize that they are "swayed to hold!"

—The women who bowtell the way less carefully made frocks need mending after each trip to the laundry will appreciate the difference of these.

—And the sale prices are "way" reduced.

Stock Reducing Sale of Georgette Blouses at . . . \$2.98

—A wealth of dainty styles at this less than worth price. They are in the bright colors and there are all sizes.

Stock Reducing Sale of Silk Camisoles 98c

—They are of wash satin and crepe de chine in pink and navy. About a dozen styles at this special price.

Jacoby's Underprice Basement—South Building.

Lace Stripe Tricolette at . . . . . \$1.39

—Tricolette for \$1.39—why, it seems 'most too good to be true! As a usual thing the maker asks more than \$1.39 for this self-same quality.

—You'll find this splendid lace stripe tricolette in quite a few different shades for both street and sports wear.

40-Inch Silk and Fiber Sport Skirtings at . . . . . \$1.89

—Baronette Bath—Sun Sheen—Brocade and novelty stripes. You know how much more than \$1.89 they sell for in the regular way.

—Early buyers will find these sport skirtings in white and five different shades.

Second Floor, South Building—Jacoby's.

Batiste Flouncings 98c

at . . . . . 98c

—They come from those wonderful Switzerland looms that weave the loveliest embroideries in the world.

—27-inch flouncings in flower and conventional designs. Some have 3-inch ruffles hemstitched on and are finished with narrow Venice edge.

Main Floor, South Building—Jacoby's.

Our Man Tailor Will Semi-Make Your Skirt Free!

—From the Imported White Sponges we are selling at 89c.

—And if women really understand what this semi-making means, the man would be deluged with orders!

—As he says, "There's but little left to be done. Just to make the hem and sew on the hooks and eyes."

—The tailor cuts, fits and sews up the seams and even makes the placket when he semi-makes a skirt—Better look into this.

Second Floor, South Building—Jacoby's.

75 Polychrome Candle Sticks at 69c

—We have sold candlesticks very similar to these, by the hundreds, at a great deal higher price and so if you would share in this offering we urge you to shop early.

—No phone orders—no C. O. D.'s—no exchanges.

75 Pairs Polychrome Book Ends at \$1.98

—When you see them you're going to wonder how and where we got them to sell at such a price.

—There are several pretty styles.

—No phone orders—no C. O. D.'s—no exchanges.

Main Floor, South Building—Jacoby's.

100 Strands Jet Beads . . . . . 98c

—48-inch strands of medium size beads, with larger round or oblong beads on either side.

100 Strands Pearl Beads . . . . . \$4.95

—Graduated, indiscreetible French pearl beads in 14-inch strands, with 14K ring and torpede clasp.

200 Strands Pearl Beads . . . . . \$1.79

—French filled beads in graduated or small regular sizes. Strands 18 to 27 inches with solid gold clasp.

Main Floor, South Building—Jacoby's.

Leather Handbags at \$2.89

—Many are samples, numerous styles, and all 'way' underpriced.

Main Floor, South Building—Jacoby's.

Baby Blankets at . . . . . 75c

—Isn't it remarkable to find a 30x40-inch baby blanket at 75c? And there is a good assortment in pinks, blues, checks and plaids, too. No C.O.D.'s or exchanges and a limit of 2 to each customer.

The Floor of Youth—the 4th—Jacoby's.

Novelty White Goods at . . . . . 29c

—We are at a loss to understand why the manufacturer sold them to us for such a ridiculously low price—but we're content with the fact that they're here, for we know they'll be a powerful magnet.

Second Floor, South Building—Jacoby's.

## Tired Shopping? drink MILK DRINKS

When you are tired or exhausted with the heat of summer days, drop into a Fountain and ask Eddie for a Milk Shake—any kind of a milk drink.

## EARLY GARBAGE MOVE EXPECTED.

Directors of Reduction Firm Will Meet Today.

Company Faces Seizure of Plant by City.

Methods of Waste Disposal in East Are Told.

Action is expected within the next forty-eight hours to settle, at least temporarily, the garbage disposal problem of the city, following the failure of G. W. Whitman and his associates to make good on their offer to take over the entire garbage output of Los Angeles for a period of ten years, beginning next Monday.

A special meeting of the directors of the Pacific Reduction Company will be held this afternoon to consider what action shall be taken in response to the warning of City Attorney Stephens that the company will be compelled to continue work under its contract, because of the failure of the Whitman syndicate to carry out the terms of the agreement under which it bid 96 cents a ton for the garbage.

As the county has prohibited as a criminal offense the feeding of garbage to hogs, in unincorporated districts, as proposed by the Whitman interests, the city is placed in the position of falling back on the Pacific Reduction Company contract, which would have automatically terminated at midnight on Sunday if the Whitman syndicate had been able to handle the garbage.

**ACTION IS MYSTERY.**  
President Mills of the reduction company said yesterday that it is impossible to forecast what action the directors will take, although he said that he, personally, can see no other way out than for the company to report to the city the company's financial inability to continue to

## ENDS FORGERY TESTIMONY.

Testimony of the prosecution in the case of the government against W. F. McShane, charged in a Federal grand jury indictment with forging bills of lading that he disposed of to the People's Bank and Trust Company of Riverside, covering shipments of fruit over the Santa Fe, was closed yesterday, and the defense will be heard this morning.

The testimony of J. C. Odell, president of the bank, was that the Sutherland Fruit Company, of which Mr. McShane was president, did a large business with the bank in 1917-18, and that the relations between the two were satisfactory. Mr. Odell said that when the crash came there was due the bank \$468,000, and of this sum his sister paid \$200,000, and his mother, \$100,000.

There were rumors about the court case yesterday that one of the witnesses, Miss Beaulieu V. Huntress, who was book-keeper in the office of the Sutherland Fruit Company, had been intimidated by persons interested in the case, but the young

woman denied anything of the kind had occurred.

Miss Huntress, being shown the signatures on a number of bills of lading, said that but two had been signed by T. J. Kennedy, vice-president of the company. None had been signed by her. She said Mr. Kennedy was on his wedding trip the latter part of June, 1919, and when pinned down to why she knew he was away at that time, said "it was just a few days before national prohibition went into effect on July 1, 1919." The reply brought out a laugh.

Eugene S. Lawyer, a handwriting expert of Alhambra, picked out ten bills of lading that he said had been written by the same hand that had written W. F. McShane on a bit of paper that he had been shown. He was not cross-examined.

J. H. Bauman, freight agent of the Santa Fe at San Diego, through whose hands the bills of lading involved in the indictment are supposed to have gone, testified that he did not sign them and that nobody in his office, authorized to sign his name, had done so.

present in the Pacific Reduction Company plant.

**TELLS OF TRIP.**

Public Works Commissioner Treat yesterday addressed the members of the City Council, telling of the results of his inspection trip to eastern cities, where he studied the methods employed in garbage disposal. Cities employing reduction or incineration for disposing of the garbage include Philadelphia, Cleveland, Pittsburgh, Kansas City, Washington, D. C., Cincinnati, Boston, Rochester, Columbus, Toledo, Chicago, Detroit and many others. The few cities still disposing of garbage to hog-feeders include St. Paul, Akron, O.; Buffalo, St. Louis, and Worcester, Mass.

Commissioner Treat stated that the Councilmen that the feeding of municipal garbage to hogs was successful only where a constant and expensive farm was established and conducted under constant inspection. One requirement for the farms is that between feedings of garbage the hogs must be turned into fields of grain or clover.

Commissioner Treat's talk brought out the fact that the collection and disposal of garbage is essentially a necessary municipal function for the protection of the public health, and that it is not primarily a money-making enterprise on the part of the city.

This was shown in the case of Boston, where, Commissioner Treat said, the city had recently granted the reduction company a bonus of \$150,000 for its disposal of the garbage, because of the fact that the decline in the prices of products manufactured from the garbage placed the Boston company in the same financial position as was the Pacific Reduction Company here when it appealed to the city for relief under its present contract.

**REDUCE COSTS.**  
The income received from the contract in eastern cities, Mr. Treat figures showed, was simply applied by the municipalities toward the reduction of the collection expense, which in Los Angeles amounts to about \$2.38 a ton.

Under the present contract, the city wags collect the garbage and deliver it to the plant of the Pacific Reduction Company. The city's collection system has been so satisfactory that no attempt has been made to change it, but the disposal problem remains a serious question.

**DE LA MONTE TELLS AIMS AS OFFICIAL.**

**NEW POLICE COMMISSIONER URGES UNITED SUPPORT FOR MAYOR CRYER.**

J. H. De La Monte, appointed to the Board of Police Commissioners to succeed Rex W. Laws, yesterday outlined the things he believed should be done in police administration, and appealed for public support of the Cryer administration.

Mr. De La Monte has had practical experience in law enforcement. For eight years he was Constable of Los Angeles County, in which time he caused several changes in the laws and otherwise improved the operation of his office. While Constable, he studied law, and in being admitted to the local bar passed with the highest honors among the class of eighty-three.

When the county charter was adopted, Mr. De La Monte was instrumental in having regulations embraced to simplify administration and thus to save public funds and increase efficiency. For eleven years he has practiced law, having been associated with Albert Lee Stephens, now Superior Court Judge, and with Mayor Cryer.

Mr. De La Monte's statement follows in part:

"In accepting the office of Police Commissioner, I realize fully the responsibility, and have somewhat reluctantly given my consent to act in this capacity, but, knowing that Mayor Cryer gave up a lucrative practice to enter the race for Mayor, I felt that every citizen of Los Angeles should stand by and encourage him in his administration of the city's affairs.

"In my particular department, there is a possibility of weeding out inefficiency, and giving our city full protection against vice and crime. Among other possibilities are:

"Adoption and enforcement of better traffic regulations, both for pedestrians and vehicles.

"General cleaning up of our homes and yards.

"Showing the outside world that our city is a beautiful and safe place in which to live.

"This can be done only with the co-operation of the citizens of Los Angeles and the press.

"If the press and people want the city cleaned up and kept clean, the time is ripe. The Mayor is a big enough man to do this, but neither the press nor the public can expect him to do it alone."

**BROKER ARRESTED HERE.**  
F. N. Smith, an Oakland broker, was arrested last night at 83th and Spring streets by Detective Sergeants Shy and Simpson on a telegraphic warrant from Oakland, charging felony embezzlement. According to the detectives here, who made the arrest, Smith is alleged to have written checks belonging to the brokerage concern without proper authority. W. F. White of the Burns Detective Agency aided in the apprehension of the broker.

Took a Neighbor's Advice.  
"Two or three years ago, whatever I ate distressed me. My liver was torpid and I lacked energy and ambition. A neighbor advised me to take Chamberlain's Tablets. I was wonderfully benefited by their use and have since enjoyed the best of health," writes Mrs. Frank Pellett, Hannibal, N. Y. "If troubled with indigestion why not take these tablets? Get well and stay well.—(Advertisement.)"

37 Floors (In 5 Connecting Buildings)—Largest Home-Furnishing Display in the United States

NEARLY A MILLION DOLLARS WORTH OF FURNITURE AT GREATLY REDUCED PRICES!

## THOUSANDS of Values That Compel Attention, in Barker Bros.' Great Summer Sale

**BARKER BROS.' sales are approximately TEN TIMES as large as those of any other home-furnishing store in Western America—more than a THOUSAND CARLOADS a year—a carload every two hours in every working day, month in and month out, continuously. That is the barometer of this store's popularity.**

Greatest volume in goods sold means greatest volume in buying power. Volume in buying power means goods bought at lower prices, and lower cost prices mean lower selling prices. This is the prime reason why this store gives **BETTER VALUES and SELLS for LESS.**

## MAN SEIZED IN FORTRESS HOME.

Officers Storm House Despite  
Threats of Death.

Defender Accused of Knifing  
Aunt Six Times.

Suspect is Subdued After  
Terrific Struggle.

Barreling himself in a house at 939 Santa street, after threatening to kill the first man who attempted to capture him, Lawrence H. Miller, 25 years old, was overpowered and disarmed yesterday by Detective Sargents Ritch and Canto after a terrific struggle.

Miller, a short time before, according to the police, had made a vicious attack on his aunt, Mrs. Jennie Olivera, at the Santa-street house, and had stabbed her six times in the back. Mrs. Olivera is at the Angelus Hospital, where, surgeons say, she will recover.

**SURROUND HOUSE.**  
An angry crowd of men, headed by several city firemen armed with rifles and revolvers, had surrounded the house in an effort to get Miller when the detective sergeants arrived. Miller had locked all the windows and doors and had drawn down the blinds after warning the crowd from the front porch that he would kill the first man who attempted to enter the house. Miller was armed with a dagger.

While one of the detectives forced an entrance through the front door the other entered the house from the rear and both leaped on Miller at the same time. The struggle that ensued was terrific, but Miller was finally disarmed and handcuffed.

According to the police reports, Miller had gone to the home of his aunt to ask for money. Mrs. Olivera had upbraided him for his purported unwillingness to work and an argument ensued during which Mil-

## LUTHERANS CONVENE HERE.

Delegates of Lutheran churches of California and Nevada, numbering 150, assembled at Trinity Lutheran Church, Eighteenth and Cherry streets, yesterday for a convention, which will continue for one week.

Rev. J. W. Theils of Christ Church is presiding. The opening sermon was delivered by Rev. O. A. Bernthal, who advocated a return to the Word of God, saying that "humanity today is placing too much reliance on modern man and his inventions to overcome evil."

A feature of the convention will be a series of free lectures on "The Book of Job," by Prof. L. Furbinger of Concordia Seminary, St. Louis, one of the largest theological schools in the United States. The first of these was delivered yesterday.

**DEATH BY GAS LAID  
TO HIS ILL HEALTH.**

Dependancy over ill health was given by the police as the cause for the suicide of E. A. Metz, 64 years old, who ended his life yesterday afternoon by inhaling gas fumes, the police say. Mr. Metz, who lived with his wife at 1228 Taft avenue, is said to have locked himself in the bathroom of his home and turned on the gas. The body was taken to the undertaking rooms of Gates, Crane & Earl by order of Coroner Nance.

Lutheran missionary work in Nevada was discussed by Rev. F. E. Martens of Reno, who has established a mission, including nine nationalities. Rev. H. O. Knigge of Lovelock, Nev., has entire jurisdiction of that State in the missionary work being carried on by the Lutheran Church, among the Indians. It is a large field and he believes it to be just as important today as at the time of the coming of the mission fathers to the shores of the Pacific.

All visiting delegates are being entertained at the homes of Los Angeles members of the church and the Ladies Aid Society is providing the noon-day luncheons free to delegates during the session. These are particularly enjoyable, and at them is open discussion of subjects under consideration.

**Borden Aided  
in Death Case by  
Eva Tanguay.**

Eddie Borden, well-known vaudeville actor, was accused of manslaughter in a complaint issued yesterday by Dep. Dist. Atty. Becker. He is held responsible for the death of Mrs. Margaret M. Cassidy, a motion-picture actress, when his car ran down at Culver City. Since the accident, Borden has been in the County Jail, but yesterday Justice Hanly released him on \$2000 bail furnished by Eva Tanguay, noted vaudeville star, and Bob Albright.

An inquest over the body of Mrs. Cassidy was held yesterday at the morgue of The White Company. The coroner's jury returned a verdict that Mrs. Cassidy came to her death as the result of a basal fracture of the skull while driving a car. Borden's hearing was set for August 11 before Justice Hinshaw.

## COMBINED HOMICIDE SQUAD AIM.

City and County Officers to  
Join in Investigating Deaths  
in Jurisdiction.

Homicide cases in Los Angeles city and county will be handled jointly by the city police department and the Sheriff's office, it was determined yesterday at a conference between Sheriff Tranger, Chief of Police Jones and Under Sheriff Biscailh.

Tentative plans were made for the combined squad which would handle all cases in the city and county relating to death of a human being. A question also taken up was closer co-operation between the two departments.

It was decided that the homicide squad should include two deputies from the Sheriff's office, two police detectives, two investigators from the District Attorney's office and a fingerprint expert. Another meeting of the three who met yesterday and representatives of the District Attorney's office will be held within a week.

It was planned to have an interlocking system for deputy sheriffs and policemen in handling all criminal cases. Arrangements will be made by which the city police alarm systems will be open to deputy sheriffs and telephone boxes will be installed in various sections of the county for use of both departments.

More Speeders  
Treated Rough;  
Cells for Two.

"Treat 'em rough" was still the slogan in the county speeders' court yesterday. The harvest was \$1144 in fines for various violations of county traffic ordinances, and two men will have to spend five days in jail.

Roy Harlow of 1821 Victoria Drive, son of Fred Harlow, well-known cafe man, pleaded guilty to driving a car at fifty-five miles an hour and was sentenced to five days in the County Jail.

J. J. Reider, accused of going fifty-two miles an hour on a motorcycle on Washington Boulevard, was sentenced to five days in jail.

**ON TRIP TO SPAIN.**  
"Mission Play" Author and Wife  
Seek Pagan Material.

Mr. and Mrs. John Steven McGroarty are to leave today on the first leg of their journey to Spain, where Mr. McGroarty plans to devote several months to extensive research work in the archives of Madrid, to collect material for a second historic pageant, depicting the days of California, while under the rule of the Spanish crown.

The new play, which Mr. McGroarty plans to produce annually during the summer months in the new Mission playhouse, being built at San Gabriel, will have as its theme the pageantry and gaudy pageants of the picturesque period of early California.

Mrs. McGroarty, who designed the costumes worn by the big cast of actors in the "Mission Play" in the past ten years, will make a special study of Spanish costumes during her sojourn in Spain.

Mr. McGroarty will seek an audience with King Alfonso, who is said to have always taken a keen interest in the old Spanish conquest of the California, and present him a copy of the plans of the new Mission playhouse and script of the historic pageant drama.

**RETURNS APPLICATION.**  
Nevada Wants City's Boulder Dam  
Request Changed.

The application by Los Angeles for authority to use the Colorado River in Boulder Canyon for hydro-electric power production has been returned for correction by the Nevada authorities, said a dispatch yesterday from Carson City. It seems that the State insists that separate applications be filed for power and storage.

Gov. Boyle is quoted as saying that he will not permit "bartering away forever our rights to development of our own rich and vast territory with our own resources. He says he will not act in the matter until he knows the details of the Boulder Canyon project.

**ICE CREAM MAN FINED.**  
Short Measure Charge Costs Dealer  
Twenty-five Dollars.

Bulk ice cream must be sold by liquid measure. This lesson was brought home rather forcefully to N. P. Garrett, a dealer at 1100 West Adams street, yesterday by Police Judge Chesbro. The lesson cost Garrett \$25.

He was arraigned in court on complaint of C. J. Buck, an inspector from the County Department of Weights and Measures, who charged that Garrett sold him a quantity of ice cream by weight instead of by liquid measure. The carton lacked a quarter of an inch of being full of cream, the inspector charged. Garrett pleaded guilty to giving short measure.

**CONVICTED AS FORGER.**  
Evidence Shows Brophy with Man  
Who Passed Bad Checks.

John Brophy was convicted of forgery by a jury in Judge Conley's court yesterday. He was jointly indicted with James Reynolds, who recently pleaded guilty, in another court, and was sentenced to the penitentiary. Reynolds was a witness in the Brophy case. He testified that Brophy did not know his name, calling him only "Jimmy," that he drew the forged checks, and passed them on two clothing houses and a downtown hotel. He admitted, however, that Brophy was with him at the time the checks were passed. Brophy will be sentenced tomorrow.

## Took Her Funds When She Was Ill, Girl Says.

Obviously suffering every time she spoke, Miss Orellia Nash, told a pathetic story yesterday to a jury in Judge Reeve's court. It was the account of a girl who was asked to marry by A. F. Shafer, accused on three counts of grand larceny, abandonment and obtaining money under false pretenses, and who "went to bat" for the man, even though he was accused of a crime. Even after he was arrested she said, "a friend in need is a friend indeed," and parted with over \$1100 in cash and \$3000 worth of jewelry, testimony indicated.

Shafer was on trial before Judge Reeve. The case probably will be ended today. Testimony indicated that Shafer proposed marriage to Miss Nash and that later he was arrested. She contracted a serious and usually fatal illness. While she was in a sanatorium, according to testimony, Shafer obtained \$100 from her upon the representation that he needed it as bail money, while records, as presented by W. S. Dismore, clerk of the Justice Court, showed he already had bail. Then, after obtaining various sums from her, it was shown, he agreed to take out insurance in his name and obtained \$200 more to pay the premium. Testimony showed that he never took out the insurance.

**Charges Wife's  
Love Alienated;  
Asks for Balm.**

Byron Randolph, 43 years old, lived happily with his wife, Mary Maples Randolph, until after they came to Los Angeles from Detroit, where they sold their property. In this city Mr. Randolph, whose wife's health was not good, turned her and was a faithful husband, until, as he asserts, D. H. Marsh and Carrie A. Marsh, whom he charges with alienating her affections in a suit for \$50,000 damages filed yesterday, misrepresented him to her.

He declares that the defendants came to his home in his absence and "wickedly injured" his reputation. He says he was compelled to elect Mr. Marsh. As a result of this purported misrepresentation, Mrs. Randolph ceased to love him, he declares. They were married in Detroit Jan. 2, 1915. The suit was prepared by Attorney R. W. Fontana.

**ON SHOOTING CHARGE.**  
Girl Accused of Firing at Attorney  
Will be Tried Soon.

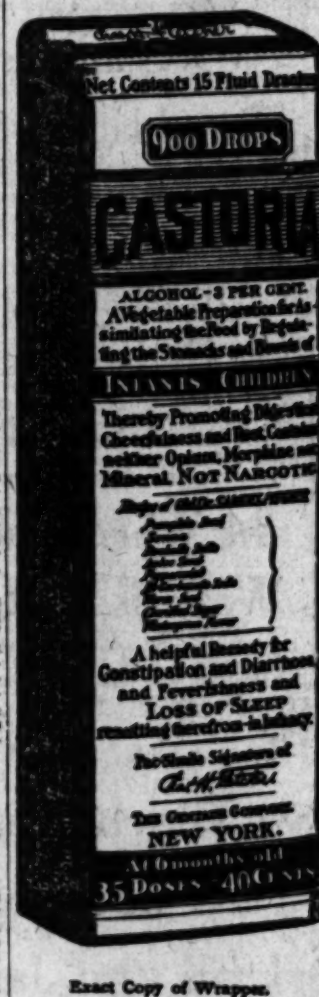

Miss Gertrude Malmberg, charged with attempting to murder Walter E. Smith, an attorney, will be tried in Judge Houser's court as soon as the Erie Mullicane case is disposed of. Miss Malmberg, who had been client of Attorney Smith, shot at him but failed to hit him. It is charged. Her case was called yesterday and continued until today.

## Honest Advertising.

THIS is a topic we all hear now-a-days because so many people exaggerate. Yet has any physician told you that we claimed remedial properties for Fletcher's Castoria? Just ask them. We ourselves, we know what the answer will be.

That it has all the virtues to-day that was claimed for it in the past to be found in its increased use, the recommendation by prominent physicians, our assurance that its standard will be maintained.

Imitations are to be found in some stores and only because of the fact that Mr. Fletcher created. But it is not the genuine Castoria that honestly advertised, honestly placed before the public and from which expects to receive his reward.

## Children Cry Fletcher's CASTORIA

**Special Care of Baby.**

That baby should have a bed of its own all the time is more reasonable for an infant to sleep with growing into a man's medicine in an attempt to regulate the stomach that same infant. Either practice is to be abandoned, to be tolerated by specialists in children's diseases.

Your Physician will tell you that baby's medicine is pared with even greater care than baby's food.

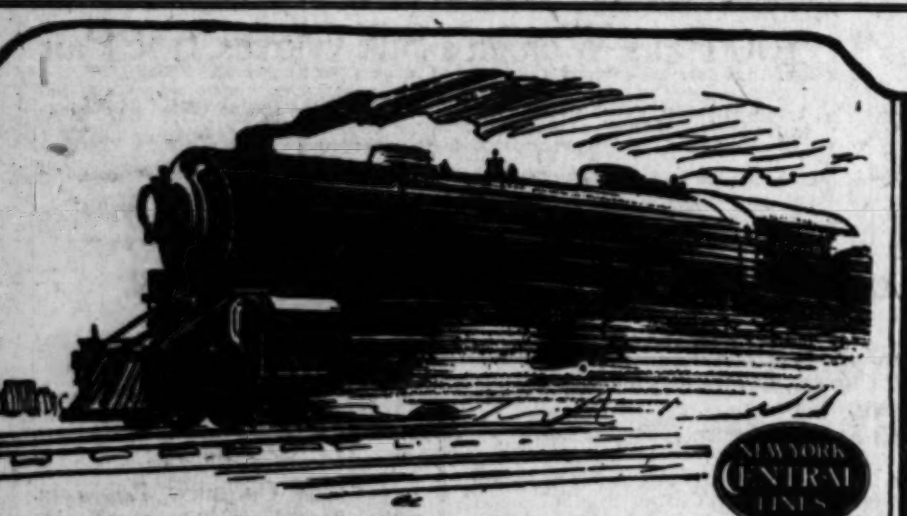

A baby's stomach when in good health is its own food. By improper food. Could you for a moment, then, think your child anything but a medicine especially infants and children? Don't be deceived.

Makes a mental note of this—It is important, baby should receive special care. No baby is so delicate that desired results may be had from the use of medicine prepared for grown-ups.

**GENUINE CASTORIA**

THE CENTAUR COMPANY, NEW YORK

## Chicago to New York

Between Chicago and New York the New York Central Lines have long maintained a passenger service famed the world over as a notable achievement in inland transportation.

Over this natural highway from the Mississippi Valley to the Atlantic Seaboard, there are operated daily twenty all-steel through trains, manned by a picked personnel of acknowledged high morale.

These trains carry more than half the through traffic that goes over all railroads between the two cities.

The water-level route of the New York Central Lines between Chicago and New York has been favored by travelers for more than half a century because of the maintenance of New York Central standards of speed, safety, comfort, personal service and dependable schedules.

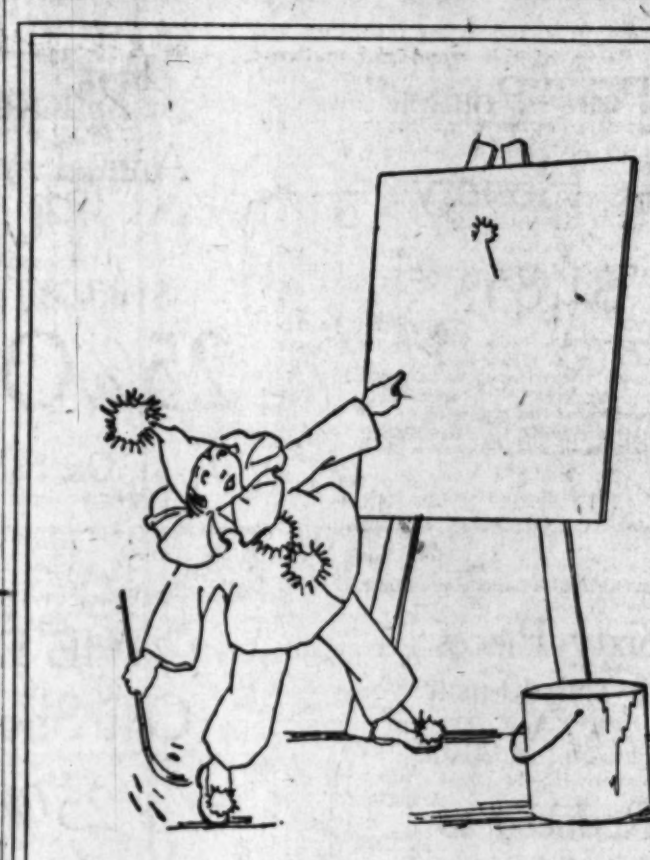

The most famous trains in the Chicago-New York service are:

EASTBOUND				WESTBOUND			
Leave Chicago	Arrive New York	Leave New York	Arrive Chicago	Leave Chicago	Arrive New York	Leave New York	Arrive Chicago
The Wolverine (a)	10:45 A. M.	9:25 A. M.	8:25 A. M.	The Michigan (a)	10:45 A. M.	9:25 A. M.	8:25 A. M.

# GREAT MONTH-END SALE

A Special Feature of Our

## MID-SUMMER CLEARANCE

Thursday, Friday, Saturday—July 28, 29 and 30.

(STORE CLOSSES AT 1 P. M. SATURDAY)

Special Values for the 3 Days That Are of Extraordinary Importance

During this great Midsummer Clearance, with its huge turnover in all kinds of merchandise, it is inevitable that certain lines should be depleted to a point wherein their continued presence on our floors becomes almost a waste of valuable floor space. For the purpose of disposing of these "short lines" quickly, our Month-End Sale has been instituted as a prominent feature of our Midsummer Clearance. This sale starts Thursday, the 28th, and ends Saturday at 1 p. m. As it covers such a short period of time and is composed almost entirely of lines that are limited in quantity, the need for quick action on the part of prospective purchasers is readily apparent. To make sure that the response will be prompt and effective, we offer values that could not possibly be equaled under any other circumstances. All of the prices on our ten-floor stock have been lowered for the Midsummer Clearance. Many of these prices have been still further lowered in the Month-End Sale—so many, in fact, that we have not been able to include all the specials in this advertisement. If what you seek is not advertised, come anyway; you are quite sure to find it here at a lower price.

### Simmons Two-Inch Post Beds \$11.50
